ORDER
Conduct of the Proceeding
37 C.F.R. § 42.5

On June 18, 2024, we entered a Final Written Decision in this proceeding determining that Petitioner demonstrated, by a preponderance of the evidence, that claims 1–5, 7–13, and 16 of U.S. Patent No. 9,173,322 B2 (Ex. 1001) are unpatentable. Paper 57 ("Decision"). The Decision discusses or cites information that is designated confidential under the Protective Order entered in this case. *See* Papers 50, 51. Accordingly, we entered the Decision in the Board's P-TACTS system as "Board and Parties Only" to afford the parties an opportunity to identify any confidential information to which we have referred in the Decision.

Petitioner and Patent Owner are to file jointly, within ten (10) business days of the entry of this Order, a proposed redacted version of the Decision, or, in the alternative, a Notice stating that the Decision does not contain any confidential information. *See* Paper 13, 3 ("Redactions to documents filed in these proceedings should be limited to the minimum amount necessary to protect confidential information, and the thrust of the underlying argument or evidence must be clearly discernible from the redacted versions.").

We remind the parties that documents in a proceeding may be made available to the public. 37 C.F.R. § 42.14; Paper 13, 3 ("We also advise the parties that information subject to a protective order may become public if identified in a final written decision in these proceedings, and that a motion to expunge the information will not necessarily prevail over the public interest in maintaining a complete and understandable trial record."). The parties may move to expunge confidential information from the record after final judgment. 37 C.F.R. § 42.56.

In consideration of the foregoing, it is hereby:

ORDERED that, within ten (10) business days of the entry of this Order, Petitioner and Patent Owner are to file jointly a proposed redacted version of the Decision, or, in the alternative, a Notice stating that the Decision does not contain any confidential information.
