LED T12 T8 Tube Light. 300 LEDs. 1500 lumens. 85-277 VAC. 4 foot in length. Plugs directly into fluorescent 2 prong receptacle replaces standard F40T12 lamps. Remove existing ballast. Plastic tube housing. Lasts 5 years. Humidity/moisture resistant. Available in white 6000 Kelvin and daylight white 4100 Kelvin color temperature. 15W. Comparable to a 40W fluorescent. The operating temperature is 100 degrees. Replaces standard fluorescent tube lights. There is no turn on wait for the tube lights. Great for business lighting, home lighting, accent lighting, or office lighting. LED T8 Tube Lights work in homes, offices, boats, RVs, buses, trains, for cabinet lighting, task lights, etc. Since you remove the ballast you save even more energy costs and replacement costs.

5 out of 5 stars **Very Good Replacement**

by Frank from Clayton, Ohio on 8/27/2009

Recommends it to Friends: **Yes**

I purchased 2 of these bulbs for the kitchen light fixture that is probably on at least 6-8 hours every day. They have been in use now for about 8 months. The bulbs work great, good light output (I think even a little brighter than the old fluorescent tubes). Ill be slowly replacing all of my fluorescent tubes with these bulbs.

5 out of 5 stars **Just Installed... So far, So good!**

by JJohnson from Cary, NC on 6/22/2009

Recommends it to Friends: **Yes**

Got home from work and found the (4) 4ft. tube lights had arrived. Took me about 90 minutes to remove 2 electrical ballasts, complete wiring between line, nuetral, test connections, reinstall covers, install the new bulbs and put back the light diffuser. I probably could have done it in less than 60 minutes, but I always double check my connections which results in more time. I was pleasantly surprised with the light output... Every bit as bright (at least 98%) as the (4) flourescent tubes using a total of 160 watts -- plus the (2) electrical ballasts (~30-40 watts total for these). Pretty good deal... Same light output for 140 watts less.

5 out of 5 stars **T12 T8 LED Tube Light 4 Foot 15 Watt**

by Ann from Kewadin, MI on 6/16/2009

Recommends it to Friends: **Yes**

I will be ordering another three pairs of these next year. Thanks to my electronics training from the USAF I was able to remove the balast, rewire my fixture (with only one breaker pop). The light is very bright even during the daytime. The quality of the tubes is excellent. I wish they came in red/blue for plant light fixtures.

5 out of 5 stars **Great Product**

by Tony from El Segundo, CA on 5/3/2009

Recommends it to Friends: **Yes**

Better light output than fluorescents. I would like to see more replacements for fluorescents.
