THE 2018 LAGOON CRAWLER

2018 LAGOON CRAWLER	VS	2017 LAGOON CRAWLER
CAT 7.1T4F 275HP MOTOR Slightly better fuel economy than the Cummins 6.7L		**CUMMINS QSB6.7 MOTOR** 10-12 gal/hour fuel consumption
12" PUMP 12,000 GPM & higher pressure than 10"		**10" PUMP** 10,000 GPM
FULL WHITE IRON HOUSING White iron impeller, inlet cover, housing & back plate		**WHITE IRON & AR STEEL** White iron housing, AR steel inlet cover, top plate & impeller
8" SIDE PIPES Higher pressure available for the agitator guns		**6" SIDE PIPES** Higher friction loss with 6" frame
32" DEEP FLOATS On entry into steep lagoons, the Crawler floats sooner		**24" DEEP FLOATS**
MODULAR PLUMBING Modular plumbing can easily be replaced		**INTEGRATED PLUMBING** Pipe is integrated with the frame
FORWARD & REVERSE Machine swivels with ball bearings		**FORWARD & REVERSE** Steel on Steel
STEEL PUMP HYDRAULIC SYSTEM Capable of higher pressures for more torque to wheels		**ALUMINUM PUMP HYDRAULIC SYSTEM** Lower Pressure

NEW TO THE 2018 LAGOON CRAWLER

DIRECT DRIVE HYDRAULIC PUMP PAD
The Cummins pump mount could not take all of the torque the hydraulic system required. Needed a belt drive to run hydraulics

REDESIGNED A-ARMS
Heavier duty A-Arm design, wear bushings in the pivot points of Crawler, Seals on bushings to keep grease in and sand out

LARGE CANNON NOZZLE
Large cannon nozzle away from motor radiator. Keeps the radiator much cleaner

REDESIGNED HYDRAULIC SYSTEM
All hydraulic blocks are easily accessible for service, redesigned dump valve block, HD cooler fans

THE 2018 LAGOON CRAWLER

NO PIT IS TOO THICK
The submerged pump & 4WD system make it impossible to get stuck.

FULL WHITE IRON HOUSING
Stand up to sand with full white iron housing

PUMPS 12,000 GPM
Tri Port header pump able to move over 12,000 GPM!

NO PIT IS TOO BIG
The remote control system allows the Lagoon Crawler to get 1000' away!

SUPERIOR AGITATION
The 8" front nozzle is able to crush through thick crusts

HYDRAULIC SELF ADJUSTING CLUTCH
No clutch adjustments needed

CRANE LIFT OPTION
Effectively clean out slurry pits using The Lagoon Crawler with crane lift. No need for excavation!

DRIVE OUT WHEN COMPLETE
The large aggressive tread tires allow you to easily drive in and out of the lagoon

EASY TO TRANSPORT
Available with a tandem trailer to get from job to job
