About Nok Nok

Nok Nok is a leader in passwordless customer authentication and delivers the most innovative FIDO, (Fast IDentity Online), solutions for the passwordless authentication market today.

Nok Nok empowers organizations to significantly improve their user experience and security, and reduce operating expenses, while enabling compliance with the most rigorous privacy and regulatory requirements. The Nok Nok™ S3 Authentication Suite integrates into existing security environments to deliver proven, FIDO-enabled passwordless customer authentication. As a founder of the FIDO Alliance and an innovator of FIDO standards, Nok Nok is an expert in next-level, multi-factor authentication.

Our Partners

Nok Nok partners with industry leaders focused on delivering next generation authentication solutions. These solutions reduce the reliance on weak and perishable passwords and other broken legacy authentication methods. Over the years, Nok Nok's FIDO-based solutions have become the foundation for strong partnerships with authenticator vendors, software OEMs and resellers around the world.

Testimonials

"Our Forgot Password flows were running at about 65%. After we rolled out FIDO by Nok Nok, our forgot passwords dropped to 7%."

Michael Engan
