Victory of Life, ViOL. Emerging Dual Wave RF Micro-Needling System. SYLFIRM X. New Design X. New X TIPS. XW-18 TIP. XA-25 TIP. XE-25 TIP. X-25 TIP. New X TIPS. New Depth 300 micron for the papillary dermis. All in one. Two type mode. PW Mode, pulsed wave. CW Mode, continuous wave. PW Mode, multiple short pulses. CW Mode, single long pulses. PW Mode, coagulation. CW Mode, coagulation. Before treatment. Increased pigments and vascular lesions. Form therapeutic electromagnetic field in all skin layers. Collagen. SR3 Technology, RP. Selective regional regeneration radio repeated pulse. Laser Toning. Selective treatment to only pigmented lesion. Vascular laser. Selective treatment to only vascular lesion. SYLFIRM X. Fundamental skin regeneration by treating basilar membrane and lesioned vessels. PW Mode, coagulation. CW Mode, coagulation. Treating precisely target skin layer. SYLFIRM X maximum 4.0 multiple myeloma depth. Lifting. Hold. Short pulse RF. High-tech RF board designed and manufactured in US Silicon Valley. One month after treatment. Upper dermal layer: reduced pores, scars, and spots. Deeper dermal layer: superb lifting effect through neocollagenesis and neoelastogenesis in dermis. Before treatment. One month after treatment. Enhanced skin firming. Stimulate neocollagenesis and neoelastogenesis anti-aging. Eight different wave form. PW1, PW2, PW3, PW4, CW1, CW2, CW3, CW4. Accurate and powerful. Before and after. Melasma 300 um. Melasma. Redness. Acne. Wrinkle. Lifting/tightening. Burn scar. Globally patented NA effect. Scientific Reports: Magazine affiliated with the world's renowned science journal, Nature. Ref. technology confirmed in scientific report of nature group. Nov. 5th, 2015. Sensation. Safe. Sophisticated. Spotless. Satisfaction. State of the art. SYLFIRM X.
