Easy Fresh is the world's only air freshener dispenser that uses the fragranced cover of the dispenser as the air freshener refill itself! Now, instead of unlocking a dispenser, unloading the old refill, loading the new refill and replacing the refill, you just take off the old cover/refill and replace it with a FRESH one!!!

Patent Pending

Freshens anywhere for 30 days!

Powerful enough to freshen larger areas

The Easy Fresh fragranced cover is composed of a unique material containing 2-3 times more fragrance than most other air fresheners like gels or metered aerosols. The motor driven fan moves air freshener further than a typical passive system, thus freshening larger areas.

Freshens consistently for 30 days

Releases approximately the same amount of air freshener daily over 30 days by controlling the fan's operation. Controlled by a computer program, the fan turns sparingly in week 1, and gradually turns more frequently until week 4 when the fan turns constantly.

Efficient

The fan only turns when the lights are on which extends the alkaline battery life up to 6 months.

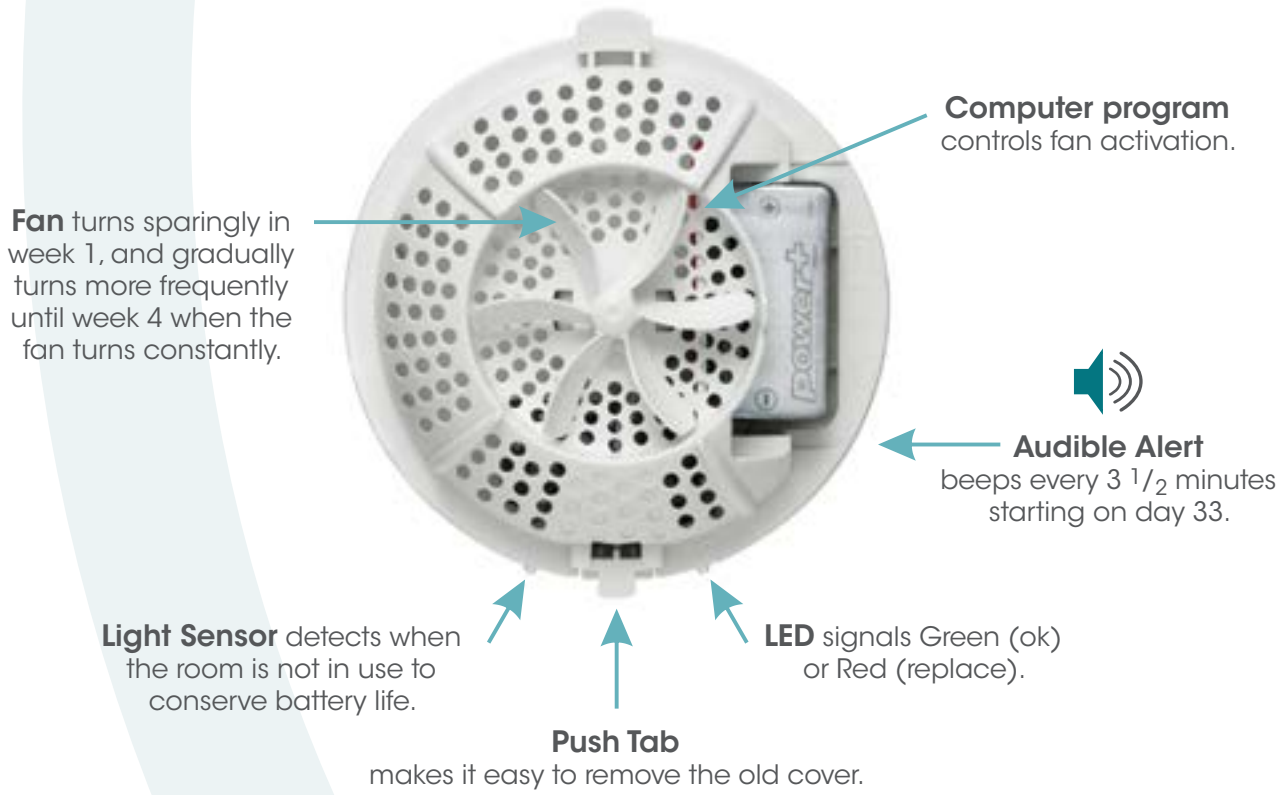
Wall Mounted Air Fresheners

Easy to use

This smart dispenser remembers everything so you don't have to! Replacing the cover activates a 33 day computer program with the following prompts:

- **Days 1-29** : green LED flashes indicating 'all systems go'
- **Day 30+** : red LED flashes indicating 'time to change cover'
- **Day 33+** : red LED flashes *plus* audible alert sound every 3 $^1/_2$ minutes

Mounts to any flat surface with the double-sided tape or screw kit that is included.
You also have the option to order the cover with it's own battery.



Safe for your facility and you

Unlike gels, liquids, or metered aerosols, Easy Fresh can't spill or misfire; so they won't harm you or your facility.

Safe for the environment

Easy Fresh is part of the industry's first closed loop recycling program so it is easily recyclable. For details, please check out www.eco-refresh.com.
