ABOUT

The **Cascade Ultra Runner Plus Treadmill** not only gives you all the exercise benefits of a self powered curved treadmill, it gives you the option to add 6 levels of magnetic resistance to add higher intensity interval training. Walk or run at your own pace then add resistance to burn more calories and add variety to your workout. Upper and lower handlebar positions accommodate all user sizes and facilitate different exercises, including sled conditioning. Premium anti-slip molded rubber slats with sealed bearings create an exceptionally quiet and smooth running surface and reduce friction wear and tear. The ultimate training tool, the Cascade Ultra Runner Plus Treadmill is fully commercial and built to last.

Console with Interval Programs

interval programs for high intensity workouts and displays level, time, distance, calories, watts. HR and speed. Built in wireless heart rate receiver.

Easy to adjust lever

6 levels of magnetic resistance to control the workout intensity. Range allows you to go from free running to a sled push.

Premium aluminum core anti-slip durable rubber slats

63” x 19” curved running surface with quality sealed bearings for a smooth workout.

Rear Handle

Makes it so easy to pick up and move the Ultra Runner Plus.

Reviews

"Absolutely love the Climber!!! Low Impact Cardio for lower AND upper body. I've been using it for both my younger and older clients and it's great for all fitness levels. Easy to operate and really great electronic console."

~ Chris K.

★★★★★

"The Climber and customer service are AWESOME!!!! I own a small personal training studio and my clients absolutely love it."

~ Geoff G.

★★★★★

"Training for Ironman Canada, the CMXPro Power bike really helped me develop my cardiovascular strength and muscle power in the cold winter months – the product quality was exceptional."

~ Natalie M.

★★★★★

"EXTREMELY QUIET!!! - The CMXPro Power is extremely quiet, easy to adjust, and has the feel of solid quality when riding it.It's smooth and consistent when out of the saddle due to the quality bearings and weight of the flywheel."

~ Brett
