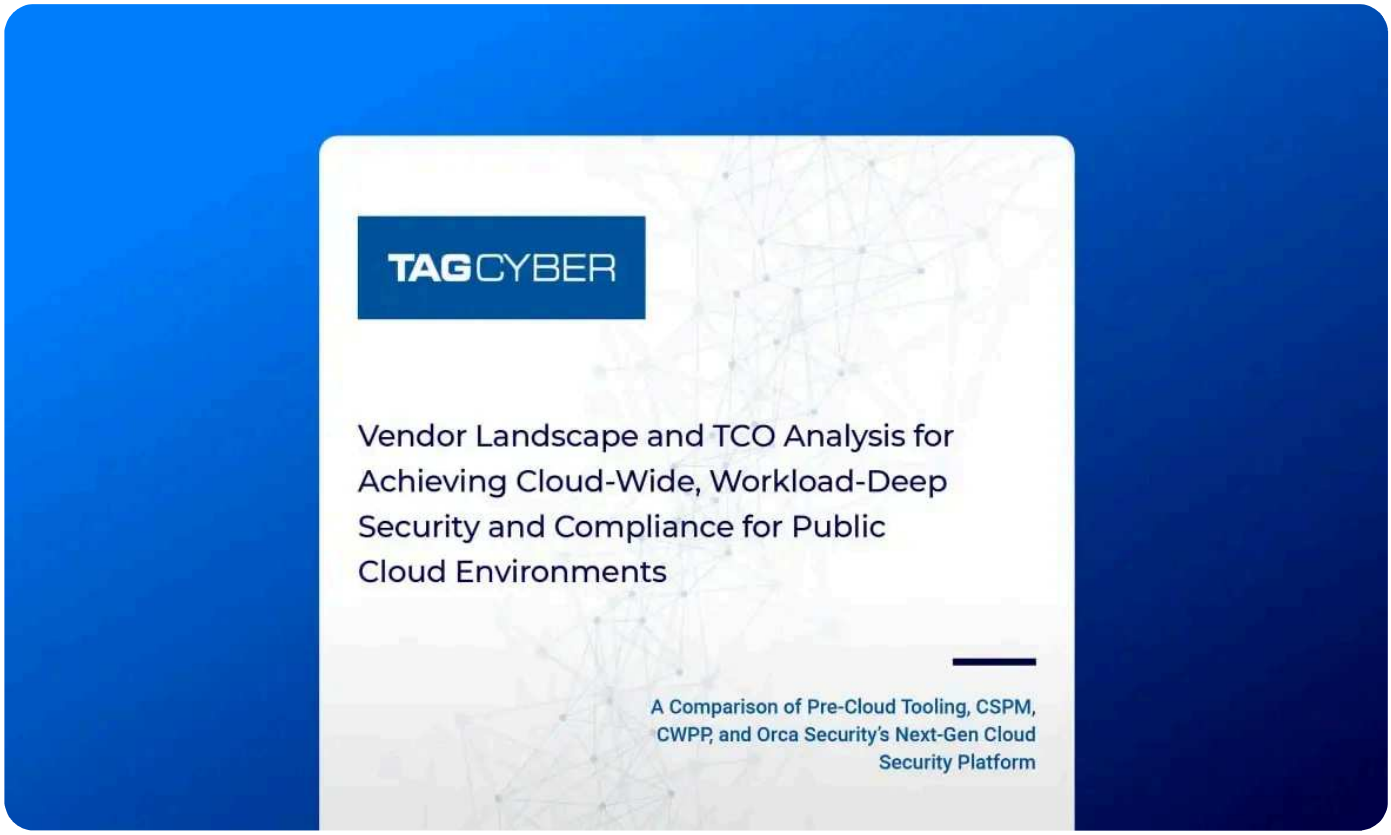
Cloud Security and Compliance: Vendor Landscape and TCO Analysis



The public cloud security vendor landscape is confusing, with each provider offering slightly different approaches, but none offering the holistic visibility and control over cloud-based environments that enterprises need.

Download this white paper, written by TAG Cyber Analysts Katie Teitler and Edward Amoroso, and take a deep dive comparison of pre-cloud tooling, CSPM, CWPP, and how Orca's next-gen cloud security platform can help you:

- Achieve workload-deep, cloud-wide visibility
- Strengthen cloud security postures

- Combine multiple security tools in one platform
- Reduce Total Cost of Ownership (TCO)
