Tom,

3pm will be fine. See you Monday

Greg

Bob – congrats from me too! I have a 2 yr old daughter so it may be a while before I'm where you are but I bet the time will fly☺
I had 3pm to 6pm on the calendar for our meeting with you guys. We can start later if you wish but I was thinking we probably needed more than 2 hours to do this justice. We're in building 18 on the main campus.
Also I wanted to introduce you to Chris Carper on my team. [redacted]
Cheers Tom

Hi Bob, congrats on the wedding – enjoy!

Sorry for the late response but we'd be available for a meeting on Monday. Between 12 and 4 for an hour would work – how about 1 pm?

Tom

Tom,

PUBLIC VERSION

As a personal note, my daughter is getting married this weekend and so I was trying to fly up Monday morning, which would most likely not get me there until 9:30 ish in the morning the earliest. Our meeting with the Silverlight team Is at 4:00 to 600 pm with Tom Honeybone. I will have our CTO , Greg Smith with me.

Thanks for the prompt follow up, I understand how fast your team is moving.

Regards,

Bob

Importance: High

Tom,

[redacted] I believe that the Silverlight team is also aware of ESPN pretty dramatic Live HD Sports broadband initiatives with the potential to catalyze the Sports and Broadband Channel market in the same fashion ABC has changed the game with Premium Full Episode VOD

[redacted]

I realize this is a somewhat short notice, let me know your thoughts.

Thanks John. We're trying to keep things coordinated here and I am working with Todd to arrange the meeting. [redacted]

A list of attendees from your side would be very helpful – can you please forward that?

We're planning on 4:00 – 6:00 PM. We assume your team will use most of the meeting to present Move from both a business and technology perspective – have you discussed a more detailed agenda with Todd or Montgomery?

Also I've attached directions to building 50.

Thanks,
Tom

A time of 4pm PT has been confirmed by Michael Montgomery for Microsoft meeting. The meeting includes a variety of different individuals. I can pull together a functional description of those attending if that would help. [redacted]

Hi John and Bob,

[redacted] - [redacted]

We're hoping a meeting Thursday afternoon will work, but I am not sure who has offered or confirmed a date and time with you. Is Thursday a possibility? We'd hope you could provide a business and technology overview – [redacted]

Let's talk in the morning to sort out schedule and agenda –

Many thanks,

Tom
