Dear Greg,

I looked at this again and wanted to clarify. The paper would have appeared online on 2010-07-30 sometime after midnight or 1AM UTC.

Our announcement process can take a few hours so our first report based on Eastern Time did not take into account that processing starting on the night of 2010-07-29 could have not finished the posting process until after midnight.

2010-07-30 sometime after midnight or 1AM UTC has been confirmed by our database records. Unfortunately at this time we do not have that part of the data in the publicly displayed record.

Regards,

Jim
