IN RE: MIDWEST ENERGY EMISSIONS CORP. PATENT LITIGATION	MDL Case No. 4:24-md-03132-SHL-WPK

NOTICE OF WITHDRAWAL OF ME2C'S MOTION
FOR PRELIMINARY INJUNCTION

On October 11, 2024, Plaintiff Midwest Energy Emissions Corp. ("ME2C" or "Plaintiff") moved for a preliminary injunction enjoining Defendants from practicing claim 1 of U.S. Patent No. 10,596,517 ("the '517 Patent"). No. 4:24-cv-243, Dkt. No. 58. In response, Defendants requested additional discovery from the third party EERC related to the reduction to practice of that claim. Those efforts resulted in the production of 23 additional pages of logbook entries that are unrelated to the testing identified by ME2C as reduction to practice, and Defendants have not identified any relevance for those pages. Nonetheless, the '517 Patent is set to expire later this month, and thus the specific relief requested in ME2C's motion is now moot.[1]

ME2C therefore files this Notice of Withdrawal of Its Motion for Preliminary Injunction.

DATED: August 6, 2025
