95th Annual Conference and Exhibition

June 23-27, 2002
Baltimore Maryland, USA

A Special Welcome from the Conference Chairs

Dear Colleague:
Let us take this opportunity to invite you to Baltimore for the Air & Waste Management Association's 95th Annual Conference and Exhibition (June 23 – June 27, 2002). We are putting together a terrific event in a terrific location. Rallying around the theme of "Cooperation for a Better Environment," we're working hard to increase this year's attendance–especially from industry and the federal government offices in Washington. This year, we are trying several new things! Find out more.

In short, we're delighted to be hosting A&WMA's 95th Annual Conference & Exhibition in Baltimore. This is a great city–with lots for the family to do and see (e.g., Inner Harbor, Fort McHenry, Port Discovery, and unbelievable restaurants!). With its centralized location, Baltimore is also a great jumping off point for a weekend in Washington, DC, Philadelphia, the Amish country, or the Shenandoah Valley. Come to A&WMA 2002 to meet with your colleagues, learn about the latest technical advances, see some informative exhibits, and have a good time!

Best regards,

Julian A Levy, jr.	Susan S.G. Wierman
General Conference Chair	General Conference Vice Chair
Vice President	Executive Director
Zephyr Environmental Corporation	Mid-Atlantic Regional Air Management Assn

Here are just a few examples of some new and exciting things planned for Baltimore!

TECHNICAL. We are putting together special plenary sessions on Environmental & Health Impacts of Emergencies and Energy & the Environment. This year's Critical Review topic is Visibility: Science and Regulation. Also, to ensure that we have access to the latest news and developments, we're holding space for an as-yet-to-be-defined Hot Issues Plenary Session. The topics of this session will be defined and speakers for this session will be invited only as the conference approaches.

EXHIBITS. We are planning some new additions to the exhibit area. We'll be having a Government Pavilion that will include not only EPA exhibits, but other government agency (e.g., National Park Service and Department of Energy) exhibits. We are inviting some of the trade associations from Washington, DC to promote their industries' respective roles in protecting the environment. And, we're hoping to have some unique events in the exhibition area.

FUN. Baltimore is a fun place and we'll be bringing some of that fun inside. The conference will open on Sunday night with our "Savor the Chesapeake" reception. On Wednesday, we're reinstating the Honors & Awards luncheon. We'll conclude the conference (from a social standpoint) with our lighthearted reception, "Taking the Field for the Environment," which will focus on some of Baltimore's sports traditions. In between, we have some exciting technical tours, a full guest program, and an innovative

PAC ET AL. EXHIBIT 1084

student program planned. Oh, and there's a ball game, which will be right across the street in beautiful Camden Yards, schedule permitting.
