AIA Review No.:	DER2023-00012
Petitioner:	Rasmussen, Jon of Williston, ND
Petitioner's Application No.:	17846932
Respondent:	Kleinschmit, Nicholas of , NE
Respondent's Application No.:	17522731

Dear PTAB Administrator,

This is to advise that the Parties have reached an Agreement in the above Derivation Proceeding. Neither party wishes to pursue its arguments further before the Board. Each party desires to have the Derivation Proceeding dismissed and the applications remanded so that they can act upon the Notices of Allowance and receive their respective patents.

Petitioners are willing to concede that Respondents are the inventors of the claims in the Respondents' patent application. Please advise if a formal Joint Motion to Dismiss is required.

Thank you,

Peter
