Evolution Gaming Wins Product Innovation of the Year At G2E

October 12, 2018 Casino Games (https://www.realmoneyaction.com/news/casino-games/) by Jim Murphy (https://www.realmoneyaction.com/author/jim-murphy/)

World-class provider of live casino solutions, Evolution Gaming (https://www.realmoneyaction.com/software/evolution-gaming/), has won the 'Product Innovation of the Year' award at G2E in Vegas (http://www.globalgamingexpo.com/Home/) for its superior Lightning Roulette game.

To win the prestigious international accolade, EG beat nine other shortlisted candidates and proved that its sophisticated software contributions to the industry in both sectors (land-based, as well as digital) have been unsurpassed in the past 12 months.

Successful Twice In a Row

The company received recognition at the Global Gaming 2018 Awards Ceremony at the Sands Expo Convention Centre in Las Vegas (https://www.realmoneyaction.com/us-casinos/nevada/#Las-Vegas-Casinos), Nevada on October 9th. Lightning Roulette represents a unique addition to the supplier's widely popular catalog of table games and it is a top-rated product among players of EVO's operator network.

Upon the award ceremony, chief product officer Todd Haushalter commented:

"It is an absolute honor to win this award. We create games that we think players will love, and that is always our core motivation. However, it is particularly special when our peers in the gaming industry judge that we have created the year's best product innovation."

Haushalter also reminded the attendees that last year, the company had won Digital Product of the Year thanks to its Dream Catcher money wheel… To win another prize the very next year is an important acknowledgement of the team's efforts as competing against other leading casino products (https://www.realmoneyaction.com/mobile-casinos/slots/) is extremely complex… the fact that Lightning Roulette has been affirmed as product of the year is immensely satisfying, added Haushalter.

'As Real As It Gets'

Evolution represents the leading force on the market when it comes to live dealer products, mostly thanks to its online experience expertise that is to be found only in real casinos (https://www.realmoneyaction.com/us-casinos/legal/)…

By developing, producing, and integrating various B2B solutions to gaming operators, EVO has spread into numerous regulated iGaming landscapes, expanding its work force at about 5,000 people across Europe and in North America alone.

The provider's portfolio includes live baccarat (https://www.realmoneyaction.com/baccarat/), blackjack, casino hold'em, three card poker and other, plus progressive jackpots, live football studio, VIP solutions and more. In addition to easy-to-play features such as live interaction or side bets, the offerings are highly beneficial for the operators as well, as unlimited revenue potential and unrivaled customization is also included.

About G2E

This is the sixth time that elite casino experts, executives and exhibitors have gathered in Las Vegas to award the most advanced industry contributors for excellence in various categories. Apart from the main ceremony, G2E also features Casino Entertainment Awards that honor nine contestants for the best comedian, musical artist, production show, executive, showroom of the year and more…

The Global Gaming Awards Las Vegas are powered by Gambling Insider in association with G2E Vegas.
