Excellent

Perfect for the small areas, head, ears, neck.
Very happy.

Better than I expected!

This is an amazing unit! I did not believe it until I tried it. It truly is life changing!

Celluma POD

I began having hip and lower leg pain and thought the Celluma POD would be much easier to move about the house as needed. I am not as happy with the little hand held device as I am with the Celluma Pro. The Celluma products as a whole are wonderful! The POD was not was I was hoping for.

Anti aging, warm, comforting

I'm working on anti aging on my neck/chest and hands! It's so nice and warm. I love sitting down and using the celluma pod. I only wish I had purchased a larger one! I may buy another because it's working. My wrinkles are disappearing and it's pretty incredible!

Not what I expected

This would probably work if I used it more often, but because I can't charge it and use it without it being plugged in, it's really inconvenient to use.
