Dear Honorable Director Squires and the Honorable Board,

Petitioner Google in related proceeding nos. IPR2026-00281, IPR2026-00282, IPR2026-00283, and IPR2026-00284 respectfully requests authorization to file a supplemental paper addressing discretionary considerations.

On June 11 & 12, 2026, Petitioner filed oppositions to Patent Owner's requests for discretionary denial.

In the pending litigation between Patent Owner and Samsung, the parties subsequently agreed to a case narrowing. As part of that case narrowing, on June 19, 2026, Patent Owner narrowed its elected claims to assert only 22 of the 209 claims challenged in these IPRs, including none of the claims of the '729 patent, which is at issue in IPR2026-00282 (i.e., validity of the '729 patent will not be addressed in district court). Petitioner is not a defendant in the district court case, but Patent Owner relies on that district court case to argue in favor of discretionary denial.

While Petitioner has raised additional reasons why discretionary denial is not appropriate here, Petitioner respectfully requests a supplemental paper of no more than 2 pages to explain why the case narrowing further counsels in favor of institution. Petitioner also requests authorization to submit an exhibit evidencing the case narrowing.

Petitioner reached out to Patent Owner prior to sending this email. Patent Owner provided its position as follows:

> Patent Owner opposes this request. However, to the extent that it is granted, Patent Owner requests equal responsive briefing to whatever briefing is granted to Petitioner with a reasonable time period of at least three business days to file Patent Owner's responsive brief.

Respectfully,

Daniel Zeilberger
Counsel for Petitioner
