Ricardo Beale
"Nitesh came to us as a leader of engineering at CCPU (Continuous Computing), bringing with him the rich heritage of the Trillium "blue blood" following. It didn't take long for him to rise through the ranks—ultimately becoming the Global Head of Engineering and Managing Director of Radisys India. I had the privilege of working alongside Nitesh, a truly visionary leader who played a pivotal role in shaping Radisys over the past two decades. With exceptional strategic insight and an unwavering commitment to innovation, Nitesh helped steer the company through transformative growth. Under his leadership, Radisys evolved from a small team to a global organization of over 2,000 professionals. He drove the development of cutting-edge cloud-native telecom solutions, launched initiatives like the Codeathon, and cultivated a unique Radisys culture rooted in collaboration, excellence, and team unity. Nitesh is far more than a seasoned executive—he's an inspiring mentor, a forward-thinking innovator, and a genuine catalyst for transformation. His legacy at Radisys is both deep and lasting. I'm confident he will continue to make a remarkable impact as he goes forward. Thank you Sir !"

Prashant Viswanathan
"It was a pleasure and privilege to be associated with Nitesh at Radisys. Nitesh was my manager for most of my tenure at Radisys and every interaction I had with him was a learning experience - its hard to imagine a better mentor. Nitesh stands out as a leader through his genuine intent and deep concern for both the business and the people he leads. Nitesh always endeavored to find a path enabled organizational goals but didn't compromise the well-being of his team. This approach ensured that the team would rally behind to achieve tough goals. Nitesh had a remarkable quality to bring people together and empowering them and the organization to succeed. In a time of crisis, Nitesh is exactly the kind of leader you want guiding you. I would be delighted to have the opportunity to be part of Nitesh's team again any day!"
