## Clinical Activity

I lead the GI Oncology practice within the Perlmuttter Cancer Center at NYU Langone Health. I have primary oversight of 10 physicians and patient care teams in Manhattan, Brooklyn, and Long Island. Our group sees over 1500 new unique GI Cancer patients per year and has over 350 encounters a week. I oversee weekly meetings with multidisciplinary teams including medical oncology, radiation oncology, palliative care, social work, nutrition, and research to provide group oversight and expert care.
I devote 50% of my effort in the outpatient clinic focusing on GI malignancies with emphasis on pancreatic, gastric and colon cancers and 2 weeks per year on the inpatient Oncology service. Since coming to NYU in 2018, I have instituted rapid access referrals in our clinics, leading to increased multidisciplinary collaboration, increased clinical trial participation and increased volumes by over 100%.

## Education Activity

My educational activities are focused on training medical oncology fellows and Internal Medicine residents in oncology care and clinical research. In addition to mentoring in my clinics, I have aggressively increased didactic lectures in GI cancers and engaged trainees broadly in exploring clinical questions in GI Oncology. I have mentored multiple trainees and collaborated with several basic science partners to help lab trainees gain clinical and translational exposure and develop new projects.
