Case IPR2024-01043
Patent No. 8,918,741

JOINT MOTION TO TERMINATE PROCEEDING

Mail Stop "PATENT BOARD"
Patent Trial and Appeal Board
U.S. Patent and Trademark Office
P.O. Box 1450
Alexandria, VA 22313-1450

Petitioners Amazon.com, Inc. and Amazon.com Services LLC ("Amazon" or "Petitioner") and Patent Owner Nokia Technologies Oy ("Nokia" or "Patent Owner") have reached a settlement. Under 35 U.S.C. § 317(a) and 37 C.F.R. § 42.74, Amazon and Nokia jointly move to terminate the present *inter partes* review proceeding and request that the Settlement Agreement and Patent Agreement be treated as business confidential information pursuant to 35 U.S.C.§ 317(b) and 37 C.F.R. § 42.74(c). The Board authorized the parties to file this Joint Motion on March 31, 2025 via email.

I. STATEMENT OF FACTS

A joint motion to terminate generally "must (1) include a brief explanation as to why termination is appropriate; (2) identify all parties in any related litigation involving the patents at issue; (3) identify any related proceedings currently before the Office; and (4) discuss specifically the current status of each such related litigation or proceeding with respect to each party to the litigation or proceeding." *Heartland Tanning, Inc. v. Sunless, Inc.*, IPR2014-00018, Paper 26, at *2 (July 28, 2014).

Patent Owner filed a patent infringement lawsuit alleging infringement of U.S. Patent No. 8,918,741 in the United States District Court for the District of Delaware, captioned *Nokia Corp. and Nokia Techs. Oy v. Amazon.com, Inc. and Amazon.com Services, LLC*, 1:23-cv-01232.

Amazon and Nokia (collectively, the "Settling Parties") have reached an agreement (the "Settlement Agreement") to resolve their disputes.

Under 37 C.F.R. § 42.74(b), the Settlement Agreement is in writing. A true and correct copy is being filed as Exhibit 2030. The Settlement Agreement references a Patent Agreement, which, along with its exhibits, has been filed as Exhibit 2031. The Settlement and Patent Agreements are being filed electronically with access to "Board and Parties Only." A "*Joint Request to Treat Settlement Agreement and Patent Agreement as Business Confidential Information*" is being filed concurrently with this Joint Motion to Terminate to treat the Settlement Agreement and Patent Agreement as business confidential information and keep it separate from the files of the involved patent under 35 U.S.C. § 317(b) and 37 C.F.R. § 42.74(c). These agreements contain confidential commercial and financial information of the Settling Parties.

II. RELIEF REQUESTED

The Settling Parties request termination of this *inter partes* review and respectfully submit that such termination is justified. "There are strong public policy reasons to favor settlement between the parties to a proceeding." Consolidated Trial Practice Guide 86 (Nov. 2019). "The Board expects that a proceeding will terminate after the filing of a settlement agreement, unless the Board has already decided the merits of the proceeding." *Id.* (citing 35 U.S.C. §§ 317(a)).

The Board should terminate this proceeding, as the Settling Parties jointly request, for the following reasons.

First, Amazon and Nokia have met the statutory requirement that they file a

"joint request" to terminate before the Office "has decided the merits of the proceeding." 35 U.S.C. § 317(a). In fact, this IPR was recently instituted and briefing is not yet complete and there has not yet been an oral argument. Under section 317(a), an *inter partes* review shall be terminated upon such joint request "unless the Office has decided the merits of the proceeding before the request for termination is filed." There are no other preconditions recited in 35 U.S.C. § 317(a).

Second, Amazon and Nokia have reached a settlement as to all the disputes in this proceeding and as to the '741 patent. A true copy of the Settlement Agreement is being filed concurrently herewith. *See* Exhibit 2030. The Settlement Agreement references a Patent Agreement, which, along with its exhibits, has been filed as Exhibit 2031. These agreements contain confidential commercial and financial information of the Settling Parties. Amazon and Nokia request that the Settlement and Patent Agreements be treated as business confidential information and be kept separate from the files of this proceeding in accordance with 37 C.F.R. § 42.74(c). The parties hereby represent that the documents filed as Exhibits 2030 and 2031 represent all agreements made in connection with, or in contemplation of, the termination of this proceeding. All such agreements have been filed with the Board as required by 35 U.S.C. § 317(b) and 37 C.F.R. § 42.74(b).

Third, termination would save significant further expenditure of resources by the Settling Parties. Termination upon settlement, as requested, would also further

the purpose of *inter partes* review proceedings, which seek to provide an efficient and less costly alternative forum for patent disputes. Further, maintaining the proceeding would discourage further settlements, as patent owners in similar situations would have a strong disincentive to settle if they perceived that an *inter partes* review would continue regardless of a settlement.

III. CONCLUSION

For the foregoing reasons, Amazon and Nokia respectfully request termination of this *inter partes* review.
