Top 300 Organizations Granted U.S. Patents in 2024

42nd Annual Listing

This list of organizations that received the most U.S. utility patents is being published by IPO for the 42nd consecutive year, in collaboration with Harrity Analytics. It is based on data obtained from the U.S. Patent and Trademark Office.

For additional patent prosecution, technology, and law firm statistics related to the U.S. Patents issued in 2024, visit the Patent 300® website for a free analytics report.

January 15, 2025

2024 Patent Owners

Numerical Listing

The total number of patents granted by the USPTO in 2024 was 324,042, up 4 percent from 2023. The data for an individual organization could be affected by mergers, acquisitions, divestitures, inconsistent treatment of subsidiaries in 2023 and 2024, and many other factors. New organizations on the list are provided on page 9.

2024 Patent Owners

Alphabetical Listing

The total number of patents granted by the USPTO in 2024 was 324,042, up 4 percent from 2023. The data for an individual organization could be affected by mergers, acquisitions, divestitures, inconsistent treatment of subsidiaries in 2023 and 2024, and many other factors. New organizations on the list are provided on page 9.

END NOTES:

1. The number of patents granted does not necessarily indicate the value of a company's technology, the effectiveness of its R&D, or whether it will be profitable. The number of patents per company varies widely from industry to industry and from company to company within an industry.

2. This report was compiled by Harrity Analytics from patent data provided by the U.S. Patent and Trademark Office. Patents reported are utility patents granted during calendar year 2024 that listed the organization or a subsidiary as the owner on the printed patent document. Using organization and subsidiary data provided to two independent third-party data providers, over 200,000 assignments were reviewed to attribute ownership to the correct organization, where applicable. Patents that were granted to two or more organizations jointly are attributed to each organization separately. Companies for which patents were granted to subsidiaries are combined with patents granted to the parent.

3. IPO has published this report annually since 1984 as a service to its members. For annual lists, go to https://www.ipo.org/index.php/resources/.

4. This report, published by IPO and Harrity Analytics, was prepared by Harrity Analytics using patent data provided by the U.S. Patent and Trademark Office and information contributed by IPO members. It should not be construed as representing an endorsement, warrantee, or guarantee by either IPO or Harrity Analytics of the other party's products or services.

5. For next year's list, IPO will include patents of majority-owned subsidiaries under the name of the parent if the parent provides the names of such subsidiaries to IPO at info@ipo.org by 15 December 2025.
