+
+    1. Definitions.
+
+       "License" shall mean the terms and conditions for use, reproduction,
+       and distribution as defined by Sections 1 through 9 of this document.
+
+       "Licensor" shall mean the copyright owner or entity authorized by
+       the copyright owner that is granting the License.
+
+       "Legal Entity" shall mean the union of the acting entity and all
+       other entities that control, are controlled by, or are under common
+       control with that entity. For the purposes of this definition,
+       "control" means (i) the power, direct or indirect, to cause the
+       direction or management of such entity, whether by contract or
+       otherwise, or (ii) ownership of fifty percent (50%) or more of the
+       outstanding shares, or (iii) beneficial ownership of such entity.
+
+       "You" (or "Your") shall mean an individual or Legal Entity
+       exercising permissions granted by this License.
+

```
+       "Source" form shall mean the preferred form for making modifications,
+       including but not limited to software source code, documentation
+       source, and configuration files.
+
+       "Object" form shall mean any form resulting from mechanical
+       transformation or translation of a Source form, including but
+       not limited to compiled object code, generated documentation,
+       and conversions to other media types.
+
+       "Work" shall mean the work of authorship, whether in Source or
+       Object form, made available under the License, as indicated by a
+       copyright notice that is included in or attached to the work
+       (an example is provided in the Appendix below).
+
+       "Derivative Works" shall mean any work, whether in Source or Object
+       form, that is based on (or derived from) the Work and for which the
+       editorial revisions, annotations, elaborations, or other modifications
+       represent, as a whole, an original work of authorship. For the purposes
+       of this License, Derivative Works shall not include works that remain
```

```
+       separable from, or merely link (or bind by name) to the interfaces of,
+       the Work and Derivative Works thereof.
+
+       "Contribution" shall mean any work of authorship, including
+       the original version of the Work and any modifications or additions
+       to that Work or Derivative Works thereof, that is intentionally
+       submitted to Licensor for inclusion in the Work by the copyright owner
+       or by an individual or Legal Entity authorized to submit on behalf of
+       the copyright owner. For the purposes of this definition, "submitted"
+       means any form of electronic, verbal, or written communication sent
+       to the Licensor or its representatives, including but not limited to
+       communication on electronic mailing lists, source code control systems,
+       and issue tracking systems that are managed by, or on behalf of, the
+       Licensor for the purpose of discussing and improving the Work, but
+       excluding communication that is conspicuously marked or otherwise
+       designated in writing by the copyright owner as "Not a Contribution."
+
+       "Contributor" shall mean Licensor and any individual or Legal Entity
+       on behalf of whom a Contribution has been received by Licensor and
+       subsequently incorporated within the Work.

+    2. Grant of Copyright License. Subject to the terms and conditions of
+       this License, each Contributor hereby grants to You a perpetual,

+       copyright license to reproduce, prepare Derivative Works of,
+       publicly display, publicly perform, sublicense, and distribute the
+       Work and such Derivative Works in Source or Object form.
+
+    3. Grant of Patent License. Subject to the terms and conditions of
+       this License, each Contributor hereby grants to You a perpetual,
+       worldwide, non-exclusive, no-charge, royalty-free, irrevocable
+       (except as stated in this section) patent license to make, have made,
+       use, offer to sell, sell, import, and otherwise transfer the Work,

+       by such Contributor that are necessarily infringed by their
+       Contribution(s) alone or by combination of their Contribution(s)
+       with the Work to which such Contribution(s) was submitted. If You

+    4. Redistribution. You may reproduce and distribute copies of the
+       Work or Derivative Works thereof in any medium, with or without
+       modifications, and in Source or Object form, provided that You
+       meet the following conditions:
+
+       (a) You must give any other recipients of the Work or
+           Derivative Works a copy of this License; and
+
+       (b) You must cause any modified files to carry prominent notices
+           stating that You changed the files; and
+
+       (c) You must retain, in the Source form of any Derivative Works
+           that You distribute, all copyright, patent, trademark, and
+           attribution notices from the Source form of the Work,
+           excluding those notices that do not pertain to any part of
+           the Derivative Works; and
+

```
+       (d) If the Work includes a "NOTICE" text file as part of its
+           distribution, then any Derivative Works that You distribute must
+           include a readable copy of the attribution notices contained
+           within such NOTICE file, excluding those notices that do not
+           pertain to any part of the Derivative Works, in at least one
+           of the following places: within a NOTICE text file distributed
+           as part of the Derivative Works; within the Source form or
+           documentation, if provided along with the Derivative Works; or,

+           or as an addendum to the NOTICE text from the Work, provided
+           that such additional attribution notices cannot be construed

+
+       You may add Your own copyright statement to Your modifications and
+       may provide additional or different license terms and conditions

+       for use, reproduction, or distribution of Your modifications, or
+       for any such Derivative Works as a whole, provided Your use,
+       reproduction, and distribution of the Work otherwise complies with
+       the conditions stated in this License.
+
+    5. Submission of Contributions. Unless You explicitly state otherwise,
+       any Contribution intentionally submitted for inclusion in the Work
+       by You to the Licensor shall be under the terms and conditions of
+       this License, without any additional terms or conditions.

+ # Kubernetes
+
+ Kubernetes is an open source reference implementation of container cluster management.
+
+ ## Getting started on Google Compute Engine
+
+ ### Prerequisites
+
+ 1. You need a Google Cloud Platform account with billing enabled.  Visit http://cloud.google.com/console for more details
+ 2. You must have Go installed: [www.golang.org](http://www.golang.org)
+ 3. Ensure that your `gcloud` components are up-to-date by running `gcloud components update`.
+ 4. Get the Kubernetes source:  `git clone https://github.com/GoogleCloudPlatform/kubernetes.git`
+
+ ### Setup
+ ```
+ cd kubernetes
+ ./src/scripts/dev-build-and-up.sh
+ ```
+
+ ### Running a container (simple version)
+ ```
```

Oracle Ex. 1155, p. 17
Oracle v. VirtaMove
IPR2025-00964

```
+ cd kubernetes
+ ./src/scripts/build-go.sh
+ ./src/scripts/cloudcfg.sh -p 8080:80 run dockerfile/nginx 2 myNginx
+ ```
+
+ This will spin up two containers running Nginx mapping port 80 to 8080.
+
+ To stop the container:
+ ```
+ ./src/scripts/cloudcfg.sh stop myNginx
+ ```
+
+ To delete the container:
+ ```
+ ./src/scripts/cloudcfg.sh rm myNginx
+ ```
+
+ ### Running a container (more complete version)
+ ```
+ cd kubernetes
```

```
+ ./src/scripts/cloudcfg.sh -c examples/task.json create /tasks
+ ```
+
+ Where task.json contains something like:
+ ```
+ {
+   "ID": "nginx",
+   "desiredState": {
+     "image": "dockerfile/nginx",
+     "networkPorts": [{
+       "containerPort": 80,
+       "hostPort": 8080
+     }]
+   },
+   "labels": {
+     "name": "foo"
+   }
+ }
+ ```
+
```

Oracle Ex. 1155, p. 18
Oracle v. VirtaMove
IPR2025-00964

```
+ Look in the ```examples/``` for more examples
+
+ ### Tearing down the cluster
+ ```
+ cd kubernetes
+ ./src/scripts/kube-down.sh
+ ```
+
+ ## Development
+
+ ### Hooks
+ ```
+ # Before committing any changes, please link/copy these hooks into your .git
+ # directory. This will keep you from accidentally committing non-gofmt'd
+ # go code.
+ cd kubernetes
+ ln -s "../../hooks/prepare-commit-msg" .git/hooks/prepare-commit-msg
+ ln -s "../../hooks/commit-msg" .git/hooks/commit-msg
+ ```
+
```

```
+ ### Unit tests
+ ```
+ cd kubernetes
+ ./src/scripts/test-go.sh
+ ```
+
+ ### Coverage
+ ```
+ cd kubernetes
+ go tool cover -html=target/c.out
+ ```
+
+ ### Integration tests
+ ```
+ # You need an etcd somewhere in your path.
+ # To get from head:
+ go get github.com/coreos/etcd
+ go install github.com/coreos/etcd
+ sudo ln -s "$GOPATH/bin/etcd" /usr/bin/etcd
+ # Or just use the packaged one:

```
+ sudo ln -s "$REPO_ROOT/target/bin/etcd" /usr/bin/etcd
+ ```
+
+ ```
+ cd kubernetes
+ ./src/scripts/integration-test.sh

+ ### Keeping your development fork in sync
+ One time after cloning your forked repo:
+ ```
+ git remote add upstream https://github.com/GoogleCloudPlatform/kubernetes.git
+ ```
+
+ Then each time you want to sync to upstream:
+ ```
+ git fetch upstream
+ git rebase upstream/master
+ ```
+
```

```
+ ### Regenerating the documentation
+ Install [nodejs](http://nodejs.org/download/), [npm](https://www.npmjs.org/), and
+ [raml2html](https://github.com/kevinrenskers/raml2html), then run:
+ ```
+ cd kubernetes/api
+ raml2html kubernetes.raml > kubernetes.html
+ ```
```
