MEMBERSHIP

The Cyber Threat Alliance (CTA) is an independent, non-profit membership organization focused on cybersecurity providers. We currently have 34 private-sector members split across across three tiers, and are actively growing our membership to include cybersecurity companies from around the world focused on every element of the ecosystem.

In addition, we are building diverse partnerships with Computer Emergency Response Teams (CERTs), Information Sharing and Analysis Organizations (ISACs), peer non-profits, and other organizations that are not eligible for CTA membership. Visit our Partnerships page to learn more.

JOIN CTA TODAY

OUR MEMBERSHIP PROGRAMS

CTA has three member categories: Contributing, Affiliate, and Charter. Each requires a different level of commitment in return for a greater say in how the organization is managed and run.

CHARTER MEMBERS

Charter members make the greatest level of commitment to CTA, in terms of both dollars and people. In return, charter members are guaranteed a board seat, participate in the committees that help govern the alliance, and share and receive threat intelligence.

Check Point SOFTWARE TECHNOLOGIES LTD

CISCO

FORTINET

paloalto NETWORKS

Patent Owner, Centripetal Networks, Inc. - Ex. 2008, p. 1

AFFILIATE MEMBERS

Affiliate members are expected to make a meaningful contribution in terms of dollars and people. The specific membership fee varies depending on the member's global annual revenue. Affiliate members participate in the operations of the alliance, are eligible to run for a board seat, and share and receive threat intelligence.

Patent Owner, Centripetal Networks, Inc. - Ex. 2008, p. 2

CONTRIBUTING MEMBERS

Contributing members make a reduced financial contribution to CTA. The specific membership fee varies depending on the member's global annual revenue. Contributing members share and receive threat intelligence, but are not eligible to sit on the Board or have a designated participant on CTA's standing committees (aside from Algorithm and Intelligence, which is open to all members).

Patent Owner, Centripetal Networks, Inc. - Ex. 2008, p. 3

MEMBERSHIP BENEFITS

CTA membership offers different tiers, with varying levels of financial contribution and governance involvement, to suit a diverse array of organizational needs and goals.

	Contributing Members	Affiliate Membership	Charter Members
Share intelligence and draw information from the CTA platform and participate in human-speed sharing activities	✓	✓	✓
Engage in disruption of malicious cyber activity	✓	✓	✓
Representation on CTA's Algorithm and Intelligence Committee	✓	✓	✓
Representation on CTA's other Standing Committees that facilitate day-to-day operations	×	✓	✓
Annual eligibility to run for an Affiliate Director seat on the CTA Board of Directors	×	✓	×
Receive a guaranteed, non-term-limited seat on the CTA Board of Directors	×	×	✓
Guaranteed governance role on CTA's Steering Committee, including shaping CTA's mission and by-laws	×	×	✓

About this capture

ELIGIBILITY REQUIREMENTS

All potential members undergo a thorough vetting process, to confirm that CTA membership is mutually beneficial and that the following baseline criteria are met:

- All members must be eligible to conduct business in the U.S.
- All members must have threat intelligence to submit to CTA
- All members must maintain the technical capability to share and receive threat intelligence to/from CTA
- All members must be free from undue government influence; specifically, from government affiliations (other than customer relationships) that are contrary to the Alliance's purpose
