EagleView® Technologies Named by Inc. Magazine as one of America's Fastest Growing Private Companies

August 21, 2012

Ranked No. 13 in the Software Category for 2012

EagleView Technologies, the leading provider of aerial measurement technologies, announced today that it has been named to *Inc.* Magazine's list of America's fastest growing privately held companies. EagleView was ranked No. 13 in the software category and No. 133 overall in *Inc.* Magazine's recently released 31st annual Inc. 500. The ranking was determined by the company's three-year revenue growth of 2,406 percent.

"We are pleased to be recognized by *Inc.* Magazine and to become part of this prestigious community of honorees," said Chris Barrow, EagleView president and CEO. "Since day one, our employees have worked tirelessly contributing to the growth and success of EagleView. This recognition validates their hard work and diligence. "

According to *Inc.* Magazine, the 2012 Inc. 500 is the most competitive crop in the list's history. To make the cut, companies had to have achieved a minimum of 770% in sales growth. The Inc. 500's aggregate revenue is \$15.7 billion, with a median three-year growth of 1,431 percent.

With this recognition, EagleView joins the ranks of companies such as Microsoft, Zappos, Intuit, Jamba Juice, Zipcar, Clif Bar, Vizio, Oracle, and many other well-known names that gained early exposure as members of the Inc. 500|5000.

"Now, more than ever, we depend on Inc. 500/5000 companies to spur innovation, provide jobs, and drive the economy forward. Growth companies, not large corporations, are where the action is," says Inc. magazine Editor Eric Schurenberg.

About EagleView Technologies

Headquartered in Bothell, Wash. EagleView Technologies automates manual processes through technology. The insurance and construction industries rely on EagleView's patented technology and methods to provide detailed, accurate measurements from aerial imagery. The company continues to develop new technologies that lead to improved efficiency and increased profits for businesses.
