EagleView® Technologies and AccuLynx™ Announce Seamless Integration

(Bothell, Wash., February 1, 2010) – EagleView Technologies, the leader in aerial roof measurements, is excited to announce that it now offers total integration with AccuLynx, the leader in web-based roofing management software. Roofing contractors can now order an EagleView report directly from within AccuLynx, saving time and eliminating the need for a manual import.

“Many of EagleView’s customers use AccuLynx to manage their roofing business,” stated Chris Barrow, President and CEO of EagleView Technologies. “The ability to order EagleView reports from within AccuLynx is just one more way we can help roofing contractors become more productive, efficient and as a result, run a more profitable business. It’s our goal to not only provide the most accurate, reliable roof measurement reports but to be an overall enhancement to contractors’ profitability.”

With the seamless integration, users of AccuLynx will no longer have to request EagleView reports in a specific format and perform a manual import. The EagleView report can be ordered with the click of a button and users will have the ability to track the progress of their reports from within AccuLynx.

Richard Spanton, Jr., CEO of AccuLynx, understands the importance of offering his customers the option to order an EagleView report from within AccuLynx. “We recognize that EagleView is a critical component to preparing an exact estimate and planning job production,” said Spanton. “AccuLynx has always provided its users with tools that help them run their business as efficiently as possible. This integration is just one more way we can help improve ease of use.”

About EagleView Technologies

Headquartered in Bothell, Wash., EagleView Technologies, Inc. invented the concept of aerial roof measurements and the proprietary patent pending software and process which provides detailed calculations that offer the highest accuracy and precision of any other method. EagleView is currently in its sixth generation of aerial measurement software. With the EagleView reports, roofing contractors and insurance adjusters see significant improvement in measurement accuracy along with dramatic increase in profitability.
