Subject: Request for guidance on submitting physical sample from deposition; IPR2023-00273
Date: Friday, July 28, 2023 3:37:00 PM
Attachments: [Request for Initial Conference Call IPR2023-00273.msg](#)

Dear Board,

Counsel for Patent Owner in IPR2023-00273 introduced a physical sample of a product during today's deposition of Petitioner's declarant. Corresponding pictures of the product were also introduced as an exhibit. Patent Owner seeks the Board's guidance regarding whether the Board deems it necessary for Patent Owner to submit the physical product sample, and if so how. The product is a mechanism (parking brake actuator) about 6 inches by 6 inches and could be mailed/shipped to the Board. Patent Owner's counsel will submit pictures of the sample regardless. If the Board does not require submission of the physical sample, Patent Owner's counsel will maintain custody/control of the sample.

Counsel for Petitioner indicated they would be agreeable with either option (submission of the sample to the Board, or Patent Owner's counsel maintaining the sample).

Patent Owner's counsel would also like to kindly remind the Board of Patent Owner's request to modify the date for oral argument in this matter (see attached). Thank you.

Timothy J. Murphy
