Motion to Dismiss - Improper Venue (FRCP 12(b)(3))		Recommended granting	
Venue L Venue Rules for Patent Infringement (TC Heartland) L Regular and Established Place of Business		The magistrate judge recommended granting defendant's motion to dismiss plaintiff's patent infringement action for improper venue because defendant did not have a regular and established place of business in the district through its dealerships. "[Plaintiff] has not shown that [defendant] has any day-to-day control over the operations of the dealership or the service department performing warranty work. Contractual provisions governing dealership locations, requiring dealerships to provide warranty services regardless of where the vehicle was purchased, and instructions for warranty services, "are merely reflective of the ordinary desire of manufacturers to set sufficient minimum performance and quality standards to protect the good name of their trademark that they are allowing another to display" and "do not establish, without more, the kind of close control ... that would indicate" an agency relationship. . . . Whether we consider the dealerships collectively or individually, [plaintiff] has not shown that [defendant's] employee presence is predictable, subject to any pattern, or consistent with regard to the time of day or with regard to the day of the week or month. . . . [T]here is no showing that any room or space, or even a desk, is set aside and identified as the place for [defendant's] employees that is 'settled certainly, or fixed permanently' when they are at any of the dealerships in the district."
