Aims & Scope

Publication Details

This publication considers original works that enhance the existing body of knowledge. Results described in the article should not have been submitted or published elsewhere. Expanded versions of conference publications may be submitted. Articles must be intelligible and must be written in standard English.

Peer Review: Peer review is vital to the quality of published research. Each article submitted to IEEE is evaluated by at least two independent reviewers selected by a member of the publication's editorial board. Learn more about the IEEE peer review process.

Publication Fees: This publication is supported by subscriptions and applicable Article Processing Charges (APCs). Although there is no cost for publishing with IEEE, authors may wish to take advantage of some of our fee-based offerings; visit the IEEE Author Center for more information on available options.

Plan S Funded Authors: This is a Transformative Journal that is fully compliant with Plan S, enabling a Coalition S funded author to publish their research open access and be compliant with funder mandates. Read more about IEEE Transformative Journals.

Errors in Published Articles: Authors who have detected an error in their published article should contact the Editor-in-Chief shown above to request the publication of a correction. Note that no change may be made to the original article after it is published in IEEE Xplore.
