Moving science forward

ScienceDirect combines authoritative, full-text scientific, technical and health publications with smart, intuitive functionality so that users can stay informed in their fields and can work more effectively and efficiently.

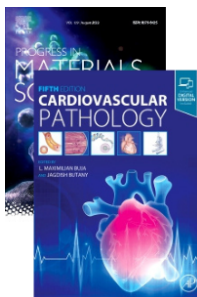

With high-quality journals, books and reference content, the ScienceDirect platform uniquely supports an uninterrupted workflow so researchers move seamlessly among books and journals and across topics and disciplines.

- academia (<https://www.elsevier.com/solutions/sciencedirect/academic-institutions>)
- government (<https://www.elsevier.com/solutions/sciencedirect/government-research>)
- industry (<https://www.elsevier.com/solutions/sciencedirect/r-and-d>)

Usage and analysis shows that books enhance the value of journals and users get a bigger return on investment when they have access to both. Learn more about the platform.

- **Physical Sciences & Engineering** publications cover a range of disciplines, from the theoretical to the applied.
- **Life Sciences** journal articles and book chapters feature original research, insightful analysis, current theory and more.
- **Social Sciences & Humanities** journals and books highlight historical context, current developments, theories, applications, trends and more.
- **Health Sciences** collections — covering education, reference information and decision support — keep you up-to-date on medical developments to stimulate research and improve patient care.

“ScienceDirect provides me [with] detailed information about my topic in a very short span of time. All the content is authentic, so I need not waste time looking for the verification of it, increasing yield tremendously.”

— Neurosurgeon, from a hospital in India

ScienceDirect®

Rely on authoritative and trusted information from Elsevier about the world's most pressing research and discovery questions. Explore 24 major subject fields to:

- develop foundational knowledge
- explore fields of research, methods and materials
- expand subject matter expertise
- inform new ideas
- stay up-to-date
- gain in-depth insights into unfamiliar, trending or emerging topics

Platform Statistics:

- >19M articles & chapters
- >2,650 peer-reviewed journals
- >43K ebooks
- >363K topics pages
- >600 open access publications
- >1.4M open access articles

Content Categories:

- Journals:** Highly cited titles such as The Lancet, Cell and Nature. Advanced access to Articles in Press, peer-reviewed articles accepted for publication in an Elsevier journal. Additional Collections available to add to a ScienceDirect Complete or Standard subscription: Freedom, Special, Subjects and Backfiles. Editions feature a curated list of journals and books to meet the needs of smaller institutions or specially focused organizations: College, Government and Corporate.
- Books:** Leading Elsevier imprints that include monographs, major reference works (MRW), textbooks, and handbook and book series, such as our critically acclaimed Methods in Enzymology. Options as subscription options: for title-by-title purchase and serials (continuation) subscription. Additional Editions available: College, Corporate, Elsevier Masson Health Sciences (French), Spanish Language ebooks and German Medical ebooks.
- Open Access:** As one of the fastest-growing open access publishers in the world, nearly all of Elsevier's 2,650 journals now enable open access publishing, including 500 fully open access journals.
