ORDER
Conduct of the Proceedings
37 C.F.R. § 42.5

On August 10, 2023, Petitioner (by electronic mail) requested authorization to file a motion to submit supplemental information pursuant to 37 C.F.R. § 42.123. Petitioner also indicated, per communications with Patent Owner's counsel, that Patent Owner would oppose the proposed motion. Petitioner's email stated:

The supplemental information would include Patent Owner Ravin Crossbows, LLC's related U.S. Patent Nos. 9,879,936 and 10,254,073 (which claim the benefit of the patent under review) and a supplemental expert declaration from Dr. Batzer. The supplemental information will help further develop the "mounted to" claim construction issue per the Board's invitation, confirm the existence of journals in the cam of the Kempf '871 reference, and confirm that the three Stanziale references support the "away from" limitation.

Further, Petitioner proposed dates and times to discuss the request with the Board.

On August 11, 2023, Patent Owner provided alternative dates and times to discuss the request with the Board.

On August 14, 2023, Petitioner provided additional dates and times of counsel's availability to discuss the request with the Board.

The Board determines that the identified dispute should be addressed by motion practice.

Accordingly, it is:

ORDERED that Petitioner may file a motion of up to five (5) pages, limited to the subjects identified in the above quotation from Petitioner's electronic mail request. The supplemental information that is the subject of Petitioner's motion may be submitted as exhibits with the motion. Such motion shall be filed on or before August 18, 2023.

FURTHER ORDERED that Patent Owner may file a response of up to five (5) pages, limited to subjects raised by Petitioner in the motion. Such response shall be filed on or before August 22, 2023.
