- Warehouse Storage Rack Failure
- Warnings and Manuals
- Water Pipe Corrosion
- [Window Regulators](#)

"Excellent work. On cross examination, the opposing attorney tried to get some admissions through Dr. Batzer regarding my other expert's opinions. It was inappropriate, but I didn't object. I knew that Dr. Batzer could handle it. He was thoroughly fluent in the other expert's opinions, and effectively communicated the complex aspects of the case to the jury."

Mike Thomson, Esq.
