Learn why the Bioness Vector is the world's elite gait and safety system. The Vector provides fall protection and dynamic body weight support for therapy clinics worldwide.

The Vector Gait & Safety System is designed for both physical and occupational therapy. The Vector System provides a safe environment and real-world experience for adult and pediatric patients recovering from stroke, amputations, and orthopedic, brain and spinal cord injuries.

Individual results vary. Patients are advised to consult with a qualified physician to determine if this product is right for them.

Risks: For Indications For Use, Contraindications, Warnings, Precautions, and other safety information are available on-line at www.bionessvector.com/safety (also available in the Vector Gait & Safety System Clinician's Guide).
