broad·cast (brôd'kăst')

v. broad·cast or broad·cast·ed, broad·cast·ing, broad·casts

v.tr.

1. To communicate or transmit (a signal, a message, or content, such as audio or video programming) to numerous recipients simultaneously over a communication network: *a radio station that broadcasts news; an agency broadcasting an appeal for donations over the internet.*
2. To make known over a wide area: *reporters who broadcast unchecked rumors in order to get the story out first; "The birds sang in flight because that was the only way, in this treeless terrain, to broadcast their claims across their chosen pieces of land" (Kenn Kaufman).* See Synonyms at [announce](#).
3. To sow (seed) over a wide area, especially by hand.

v.intr.

To communicate or transmit a signal, a message, or content, such as audio or video programming, to numerous recipients simultaneously over a communication network.

n.

1. The act or process of broadcasting a signal, a message, or content, such as audio or video programming.
2. A signal, message, or audio or video program that is broadcast over a communication network: *watched the morning news broadcast.*
3. The act of scattering seed.

adj.

1.
 - a. Communicated or transmitted by means of broadcasting, as over a communications network: *a broadcast announcement.*
 - b. Of or relating to the broadcasting of audio or video content over communication networks, as in television or radio.
2. Widely known.
3. Scattered over a wide area.

adv.

In a scattered manner.
