

Collisions & Casualties by Year

Below are statistics from the Federal Railroad Administration (FRA - part of the U.S. Department of Transportation) showing vehicle-train collisions, fatalities and injuries at highway-rail grade crossings for the years 1981-2021.

For more federal statistics, visit the **Federal Railroad Administration's Office of Safety Analysis**

(<http://safetydata.fra.dot.gov/OfficeofSafety/>).

UPDATED 12/9/22

All Highway-Rail Incidents at Public and Private Crossings, 2021-1981 **Source: Federal Railroad Administration**

Year	Collisions	Fatalities	Injuries
2021*	2,146	234	670
2020*	1,901	195	697
2019	2,237	290	842
2018	2,239	258	849
2017	2,124	271	848
2016	2,050	255	853
2015	2,080	237	1,047
2014	2,296	262	871
