EFFECTS OF CRYO-GEN PROCESS

- Increased Strength
- Longer Lasting
- Increased Toughness

Patented deep thermal cycle brings drills down to -300°F to alter and refine the molecular grain structure, relieve stress fracturing and increase durability & life.

BUR SETS

BLACK MAXX™ BUR SETS

- Our most aggressive, smoothest running bur
- Advanced MAXX teeth and titanium aluminum nitride (TiAlN) coating provide superior performance when compared with conventional burs
- Up to 35% faster cutting through mild steel
- Up to 6 times faster cutting through stainless steel
- Unique tooth geometry provides more resistance to chipping and cracking – leading to a longer service life.

STORAGE SOLUTIONS

HOW DO YOU STORE CUTTING TOOLS IN YOUR SHOP?

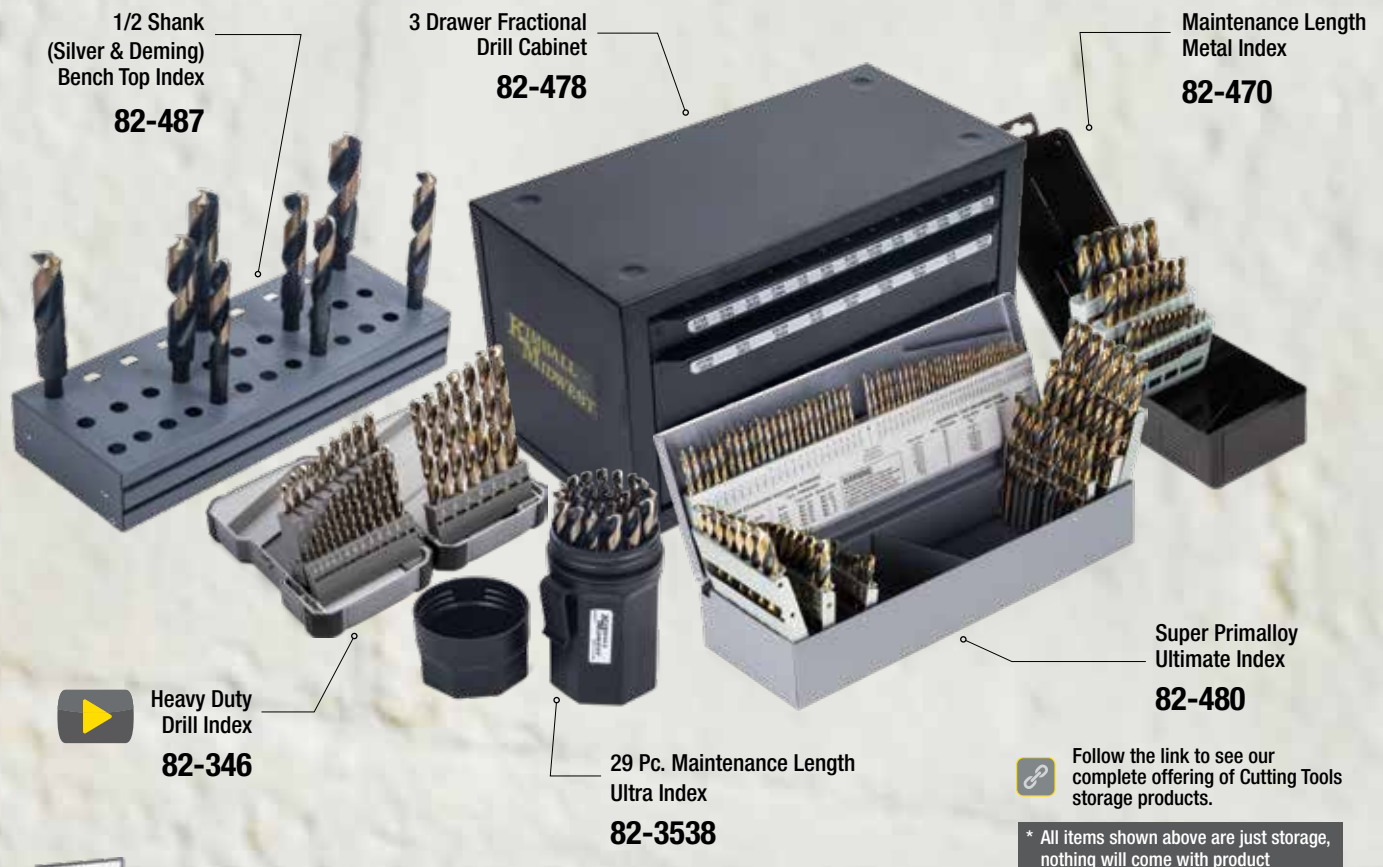

If this looks familiar, your technicians are likely losing out on a good chunk of time searching for the correct tool each time a job needs done. On the surface, it probably doesn't seem like a huge deal, but accumulated over time, this can lead to a big loss in productivity.

GET ORGANIZED!

Kimball Midwest offers a lot of great options to help you store your cutting tools more efficiently.

Organizing your cutting tools in our storage equipment can greatly improve your shop's productivity by allowing your technicians to quickly identify the correct tool and get back to work.
