Counsel,

To have its Preliminary Responses and associated evidence accepted and considered, Patent Owner would need to file a motion in each proceeding. Patent Owner is authorized to do so in each proceeding by July 7, 2023. In each proceeding, Petitioner is authorized to file an opposition to Patent Owner's motion by July 14, 2023.

Trials,

Patent Owner served opposing counsel, by e-mail, with Patent Owner's Preliminary Response and Exhibits in each of the matters IPR2023-00529 and IPR2023-00570 on June 28, 2023 at 11:47 PM ET. Patent Owner served these documents by e-mail because the P-TACTS system was malfunctioning up to the midnight deadline, displaying a message that "A virus detection system failed" (see screen capture below).

Patent Owner was eventually able to successfully file the documents through P-TACTS after midnight.

Please let us know if Patent Owner should file a motion to request acceptance of the submission, so as to be accorded the date on the certificate of service (June 28, 2023) as the identified filing date. 37 CFR 42.6(b); P-TACTS FAQ at 7-8 (Oct. 7, 2022) (Question A6).

Regards,
Jeff
