Plaintiff Halliburton Energy Services, Inc. (“Halliburton”) and Defendants U.S. Well Services, LLC and ProFrac Holding Corporation (collectively “USWS”) have filed a joint motion to dismiss all claims concerning U.S. Patent No. 9,650,871 (“the ’871 Patent”), including dismissal of (a) USWS’s Seventeenth Counterclaim (ECF 11 and 36), which concerns Halliburton’s alleged infringement of the ’871 Patent, with prejudice and (b) Halliburton’s First, Second, and Third Counter-Counterclaims (ECF 38), which concern the alleged non-infringement, invalidity, and unenforceability of the ’871 Patent, without prejudice. Having considered the foregoing, the Court GRANTS the joint motion and **ORDERS** that:

Halliburton's First, Second, and Third Counter-Counterclaims (ECF 38), which concern the alleged non-infringement, invalidity, and unenforceability of the '871 Patent, are **DISMISSED WITHOUT PREJUDICE**.

No other claims are dismissed pursuant to this order. Each party will bear its own costs, expenses, and attorneys' fees incurred in connection with the claims dismissed by this Order of Dismissal.

SIGNED this 1st day of June, 2023.

HON. ALAN D ALBRIGHT UNITED
STATES DISTRICT JUDGE
