Subject: RE: IPR2023-00557: request to file joint motion to terminate

CAUTION: This email has originated from a source outside of USPTO. **PLEASE CONSIDER THE SOURCE** before responding, clicking on links, or opening attachments.

Dear Sir / Madam,

For IPR2023-00557 involving U.S. Patent No. 9,650,871 ("the '871 Patent"), Patent Owner U.S. Well Services, LLC and Petitioner Halliburton Energy Services, Inc. wish to jointly move to terminate this IPR. Petitioner and Patent Owner have executed a final written agreement to resolve their dispute with respect to the '871 Patent and, pursuant to the parties' joint motion based thereon, the federal district court in which Patent Owner asserted the '871 Patent against Petitioner has dismissed the parties' claims with regard to that patent. Accordingly, Petitioner and Patent Owner request the Board's permission to file a Joint Motion To Terminate IPR2023-00557 pursuant to 35 U.S.C. § 317(a) and (b).

The parties also request permission to file the fully executed agreement as business confidential information for "Parties and Board Only," pursuant to the procedures set forth in 37 C.F.R. § 42.74(c).

The parties can be available at the Board's convenience if a teleconference is needed for these matters.

Thanks,
Liz
