Home » FAQ

+ Do Mac Tech instruments operate with conventional dimmers?

+ Do Mac Tech instruments operate at any film speed or shutter angle flicker-free?

+ Are Mac Tech LED tubes bi-color?

Most of our product line is single color for higher output; either 3200k or 5600k. However, our *Artist Series Flat Panels* are available in a bi-color configuration.

+ Are Mac Tech instruments DMX compatible?

+ How competitive is the cost of using Mac Tech?

+ Does Mac Tech LED require special power?

+ Are the end caps easily replaced?

+ Can I convert my Kinoflo fixtures into Soft Boxes?

+ Can Mac Tech LED lights be battery operated?

+ Does Mac Tech LED have a spot or hard edge style light?
