

I, Mr. Zhang Ya Jun state that the following information is true to my own knowledge.

1. I am the owner of Laysion located in Dongguan City of China. My company designs and manufacturers LED lights And equipment for the China movie industry.
2. In approximately 2013, I met a man I know as Ray Gonzalez, who is associated with a company known as Quasar Science. He was with Jay Yowler, Steven Strong and Andy Lau who also said they were with Quasar as partners and owners.
3. Mr. Gonzalez had a lighting tube T-12 bi-color with the name Colt on the end with company logo.
4. Mr. Gonzalez asked me if I could duplicate tube. We examined and analyzed the tube and figured out how to make a copy of the tube. I then manufactured approximately 10,000 pcs T12 bi-color for Mr. Gonzalez and Quasar.
5. I also duplicated Colt Led color tube for Quasar that is currently a patent application.
6. The copies I manufactured for Mr. Gonzalez and Quasar were indeed exact copies, down to the very smallest details.
7. We closely tested both the T12 bi-color lighting tube and my copies and determined that my copies functioned exactly the same as the T12 bi-color lighting tube, down to the very last detail.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct. (28 U.S.C. 1746).

Executed on August 15, 2018 at DongGuan/GuangDong/China
