LED Lighting Features

Why LED?

Mac Tech LED Lighting is the next stage in the evolution of LED lighting allowing you to save on equipment, power, air conditioning and more.

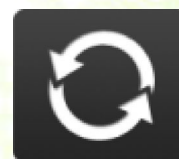

**Use Less
Power**

**Easy To
Install and
Strike**

**Superior
Quality**

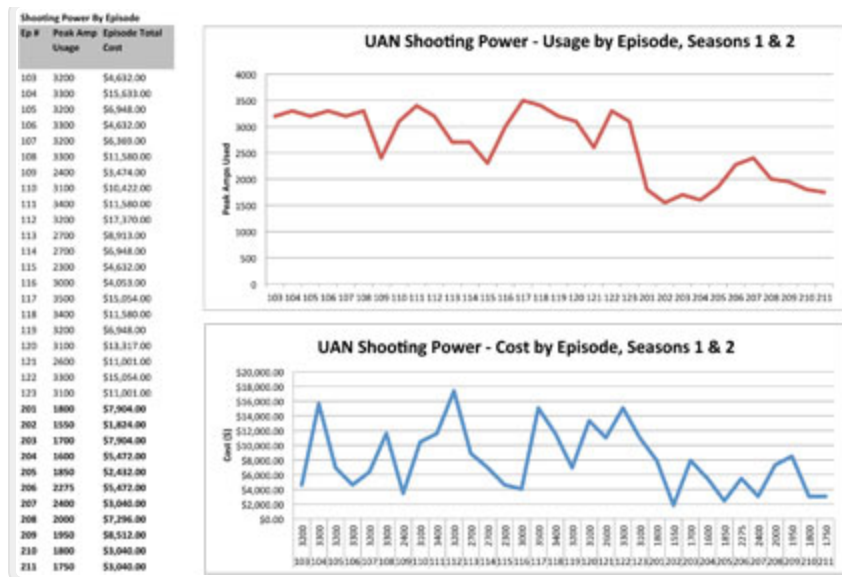

**Highest
Consistency**

Use Less Power

Uses 30-70% less power than conventional production lighting

Easy To Install and Strike

Made from 100% recyclable aluminum, Mac Tech LED fixtures are lightweight for easy load-in and strike

Superior Quality

The products use specially developed 50K hour, high output LED chips

Highest Consistency

Kelvin and color content of the highest consistency
