Q-LINE LINEAR LED LAMPS

With the Q-Line, the options are endless. From lighting actors to lighting environments, the versatility is only limited by your imagination. Stack lamps into large arrays to form LED panels of tremendous size and proportion. Light backings with unprecedented energy efficiency. String overhead above diffusions for the perfect sky. Retrofit your Kino package to high output, dimmer compatible LED units. No matter the task, Q-Line Linear LED Lamps are up to the challenge.
