FREE ZONE™ OVERVIEW

 **FREE ZONE** is an EPA approved replacement for R-12, R-134a, and R-500.

 **FREE ZONE** is approved for both automotive and stationary applications.

 **FREE ZONE** operates at almost identical pressure-temperature relationships as R-12.

 **FREE ZONE** contains no propane or butane.

 **FREE ZONE** is Non-Flammable and Non-Toxic.

 **FREE ZONE** does not require an oil change. It can be used with any refrigeration oil

 **FREE ZONE** has extremely low temperature glide (averages 2 degrees F)

 **FREE ZONE** has almost zero fractionation.

 **FREE ZONE** can be topped off following repair of a system leak.

 **FREE ZONE** is compatible with all materials commonly found in air conditioning systems.

 **FREE ZONE** contains no R-22.

 **FREE ZONE** does NOT require conversion to barrier hoses in automotive applications.

 **FREE ZONE** can contribute to energy savings.

 **FREE ZONE** can be recovered with standard recovery equipment.

 **FREE ZONE** can be detected by standard leak detectors.

 **FREE ZONE** is backed by a product warranty.

 **FREE ZONE** is currently in use in a wide variety of applications including:

Chillers

Ice Machines

Walk-in Coolers

Reach-in Coolers

Plate Chillers

Vending Machines

Automotive AC

Bus Air Conditioning

And Many Others
