Google

Advertising (learn more)

Advertise virtually anything here, with CPM banner ads, CPM email ads and CPC contextual links. You can target relevant areas of the site and show ads based on geographical location of the user if you wish.

Starts at just \$1 per CPM or \$0.10 per CPC.

noindex,follow

I'm 99% sure meta tags don't influence the PR of a page but I'm gonna ask anyway to make sure. #1
Will the meta tag <meta name="robots" content="noindex,follow"> have ANY influence on the PR of my pages ?

THE BEST TOOL FOR SEM & SEO!

TRY IT NOW FOR FREE!

My blog gets "a lot" of SE visitors but 50% of the time they end up on a categorie page instead of on the actual article page because my categorie pages have higher PR values (logical isn't it). It would be

Yeah that's what I was thinking but better safe then sorry

#3

Thanks.

Meta tags do not affect the PR in any way... PR for a page is calculated on the basis of links pointing to the page in question. You can read more about PR here:

<http://www.google.com/corporate/tech.html>
