IDG EXECUTIVE FORUMS

Conference Program
September 6-8, 2000

Welcome to DEMOmobile 2000!

In the next few days, you will see the people, products, and ideas that will help you take leadership of the dynamic and emerging mobile computing market. We're confident that DEMOmobile will deliver valuable insights and we're delighted to have you join in this critical debate.

Mobile, wireless and pervasive computing have captured the spotlight in today's technology markets. Millions of dollars are pouring into venture-backed startups and new corporate initiatives all focused on moving information and applications off of the desktop and into the hands of an increasingly on-the-go workforce and society.

In its second year, DEMOmobile has emerged as the touchstone for the leaders in the mobile computing marketplace. In preparing for this year's conference, we've met with hundreds of companies, talked to researchers and analysts, and examined fully the issues that will shape the future of mobility. We've spent the past six months dissecting this marketplace in order to focus into these few days the products and issues that you will need to understand in order to shape your mobile strategies and businesses.

Over the next few days we will . . .

- Present to you the best of the best of this new breed of technology innovator,
- Look at the technologies that lay the foundation for wireless mobility and the products and services that are being built to take advantage of those platforms,
- Debate the business issues, emerging markets, and application designs that will affect how we work now and into the future.

Enjoy the debate and critical insights gleaned from the next few days at DEMOmobile 2000!

Chris Shipley

SCHEDULE OF EVENTS

WEDNESDAY

SEPTEMBER 6, 2000

12:00pm - 7:30pm

Registration & Information Desk Open

The Ritz-Carlton Ballroom Foyer

1:30pm - 3:00pm

Pre-Conference Workshop

Winning Reviews: What Do Leading Product Reviewers Really Look For?

The Georgian Ballroom

Reviews can make or break a product — and potentially a company. But just what are the criteria used to evaluate your mobile computing products, applications, and services? DEMOmobile has assembled an all-star panel of reviewers who will share the secrets from inside the evaluation lab.

Moderator:

Jim Forbes, *Producer, DEMOmobile*

Panelists:

Jonathan Blackwood, *Senior Editor, Winmag.com*
 Bill Howard, *Senior Executive Editor, PC Magazine*
 Jim Louderback, *VP, Editorial Director, ZDTV*
 Steve Wildstrom, *Personal Technology Correspondent, Business Week*
 Kevin Railsback, *Technical Director, InfoWorld*

3:30pm - 5:00pm

Pre-Conference Workshop

Funding Wireless Ventures: Due Diligence and Emerging Opportunities

The Georgian Ballroom

In near lock step, venture investors have turned their focus to new opportunities in the emerging wireless Internet and mobile commerce market place. What are venture capital insiders looking for in mobile and wireless technologies? We've assembled a top-flight panel of investors who collectively control more than \$3 billion in capital. This panel is due diligence for every entrepreneur and seasoned tech executive looking to play in wireless mobility.

Moderator:

Chris Shipley, *Executive Producer, DEMO Conferences*

Panelists:

Deepak Natarajan, *Managing Director, Redwood Venture Partners*
 John Gardner, *Partner, Nokia Ventures*
 Jonathan Roberts, *Managing Partner, Ignition Corporation*
 Janice Roberts, *General Partner, Mayfield Fund*

6:00pm - 8:00pm

Welcome Reception

Hosted by Mayfield Fund and Qpass

The Ritz-Carlton Ballroom Foyer

This is your chance to meet our Platinum supporters, Mayfield and Qpass, as well as the other DEMOmobile sponsors at this kick-off reception.

6:00pm - 8:00pm

Platinum Sponsor Suites Open

Mayfield Fund — *The Pavilion*

Qpass — *The Plaza*

9:00pm - 12:00am

Late Night at DEMOmobile — *Featuring Entertainment by Left4Dead*
 Hosted by Lemout & Hauspie

The Lobby Lounge

Speakers

THURSDAY

SEPTEMBER 7, 2000

7:00am - 7:00pm

Registration & Information Desk Open

The Ritz-Carlton Ballroom Foyer

7:00am - 8:30am

Continental Breakfast

Hosted by Merrill Lynch

The Ritz-Carlton Ballroom Foyer

8:30am - 10:30am

Early Morning General Session

The Ritz-Carlton Ballroom

- **Welcome to DEMOmobile 2000**
Chris Shipley, *Executive Producer, DEMO Conferences*
- **The State of Mobile Computing**
Jim Forbes, *Producer, DEMOmobile*
- **Trend Spotting — Emerging platforms and marketplaces exemplified through product demonstrations.**

Demonstrations by:

Messaging Gets Personal — *MessageMachines*
Building Blocks of Enterprise Hardware — *OracleMobile*
Buying In on Mobile Commerce — *Encryptix*
Voice Enabling Mobile Computing — *Lemout & Hauspie*
Bluetooth Comes of Age — *IBM*
A Peek at Cool Hardware — *Scout Electromedia*
Consumer Appeal — *LightSurf Technologies*

- **ROADMAP: The Platform for Mobile Computing**
Frank Spindler, *VP, Marketing, Intel*

- **Look Ma, No Wires!**
Introduction of the DEMOmobile wireless network supplied and supported by Wayport.

10:30am - 11:00am

Break

Hosted by Nokia

The Ritz-Carlton Ballroom Foyer

SCHEDULE OF EVENTS

THURSDAY

SEPTEMBER 7, 2000

11:00am - 12:00pm

Late Morning General Session

The Ritz-Carlton Ballroom

- **The Future of Portable Computing Panel**
Over the next two years the definition and nature of portable computing will fundamentally change. This panel will provide you with the information you need to be prepared for and to take advantage of those changes.

Moderator:

Jim Forbes, *Producer, DEMOmobile*

Co-moderator:

Randy Giusto, *VP, Mobile & Desktop Research, IDC*

Panelists:

Mark Bregman, *GM, Pervasive Computing, IBM*
Jay Highley, *VP, Business Marketing, Sprint PCS*
Dave Whorton, *President & CEO, Good Technology*
Joe Sipher, *VP, Product Marketing, Handspring*

12:00pm - 3:00pm

Demo Pavilion Open

The Vietnamese Ballroom

12:00pm - 3:00pm

Platinum Sponsor Suites Open

Mayfield Fund — *The Pavilion*

Qpass — *The Plaza*

12:00pm - 2:00pm

Lunch

Hosted by Sprint PCS

The Vietnamese Terrace

3:00pm - 5:00pm

Late Afternoon General Session

The Ritz-Carlton Ballroom

- **Creating a Meaningful User Experience with Wireless Devices Panel**
New and existing enterprises are charging into wireless message because "they can." But should they? What constitutes a meaningful and appropriate use of mobile platforms as a device to communicate with customers? Who's getting it right and who's missing the mark?

Moderator:

Chris Shipley, *Executive Producer, DEMO Conferences*

Panelists:

Mike Mills, *Chief User Interface Designer, AlterEgo Networks*
Jakob Nielsen, *Ph.D., Usability Guru, Nielsen Norman Group*

Speakers

Demonstrators

Sponsors

Resources

THURSDAY

SEPTEMBER 7, 2000

- **Messaging Gets Personal**
There are as many approaches to message management as there are people managing messages. And so it would be foolish of us to promote one messaging platform or technique as "the best." Instead, we've culled through the companies jumping into this space to present an array of the best approaches to mobile message management.

Demonstrations by:

Unimobile.com
Right4Me.com
Visto
ecrio
eVoice

- **Technology Demonstration – Demonstration by SRI**
The number of companies and venues that use wireless networks to interconnect employees and guests is growing, but their range is still limited. SRI has an intriguing solution, combining a number of SRI developed technologies to enable highly reliable, dynamically configured, wireless, mobile networks. As you will see in this technology demonstration, PacketHop's QoS-based framework results in seamless, robust access over discontinuous wireless networks while maintaining a low network and client footprint for rapid, low-cost, deployment.

5:00pm - 7:00pm

Demo Pavilion Open

The Vietnamese Ballroom

5:00pm - 7:00pm

Reception

Hosted by OmniSky

The Courtyard

5:00pm - 7:00pm

Platinum Sponsor Suites Open

Mayfield Fund – *The Pavilion*

Gpass – *The Plaza*

7:30pm - 9:30pm

Dinner

Hosted by Wayport

The Horseshoe Garden

SCHEDULE OF EVENTS

FRIDAY

SEPTEMBER 8, 2000

7:00am - 2:00pm

Registration & Information Desk Open

The Ritz-Carlton Ballroom Foyer

7:00am - 8:30am

Continental Breakfast

Hosted by Mobileum

The Ritz-Carlton Ballroom Foyer

8:30am - 10:30am

Early Morning General Session

The Ritz-Carlton Ballroom

- **The Building Blocks of Enterprise Mobility**
Infrastructure and applications software that helps enterprise clients get ready for next generation wireless and other mobile technologies will be fundamental to the success of most large and many mid-sized businesses. What's clear in this emerging field is that savvy start-ups and established players alike are working in coordination with users to develop products that meet specific needs.

- **Part 1 – Enabling the Wireless Enterprise**
One-size-fits-all software may not work in the wireless world. What will make this one of the most challenging markets ever to emerge is that different organizations and different groups of customers have different needs. This group of companies offers a combination of features that address global issues such as synchronization, group as well as peer-to-peer messaging.

Demonstrations by:

Extensity
NetMorf
COVIGO
Syndrologic
Lotus
Neomar

- **Part 2 - Making Content Mobile**
One of the keys to success will be delivering and locating all kinds of relevant content. These companies show how we think it will be done in the emerging wireless world.

Demonstrations by:

Google
AudioBasket
DoDots
Vindigo

Speakers

Demonstrators

Sponsors

Resources

FRIDAY

SEPTEMBER 8, 2000

- **Part 3 – Voice-Enhanced Mobility**
It's hard not to notice that start-ups working in voice recognition and text to speech are catching the attention of big name venture capitalists, large carriers and companies who serve diverse groups of users. This couplet shows that voice can not only be used as a precise interface, but that it can also be used effectively as a key part of multi-technology interfaces.

Demonstrations by:
BeVocal
IBM Voice Systems

- **Personal Wireless**
It's a big mistake to forget that corporations are interested in and buying Windows CE devices. In fact, both Compaq and Hewlett Packard are not only continuing to innovate, but are also capturing sales from enterprise customers. And if you think Microsoft's commitment to personal devices is limited to traditional CE products, check out the new device in this segment.

Demonstrations by:
Microsoft
Hewlett-Packard

10:30am - 12:00pm

Break
Hosted by NetMorf
The Courtyard

10:30am - 2:00pm

Demo Pavilion Open
The Viennese Ballroom

10:30am - 2:00pm

Platinum Sponsor Suites Open
Mayfield Fund – *The Pavilion*
Qpass – *The Plaza*

12:00pm - 2:00pm

Lunch
Hosted by IBM ThinkPad
The Viennese Terrace

2:00pm - 4:00pm

General Session Refreshments
Hosted by NetMorf
The Ritz-Carlton Ballroom

SCHEDULE OF EVENTS

FRIDAY

SEPTEMBER 8, 2000

2:00pm - 4:00pm

Afternoon General Session

The Ritz-Carlton Ballroom

- **GenY: The Next Big Market Panel**
Today's 20-Somethings represent a savvy market -- the first full generation to grow up plugged in and tuned on to information and the Internet. This group of demanding consumers sets a new bar for any company that is building wireless mobility into their information products.

Moderator:
Chris Shipley, *Executive Producer, DEMO Conferences*

Panelists:
Patrick Boyle, *CEO & Co-founder, MobileEngines*
Gordon Gould, *CEO & Founder, Upoc*
Frank Zammataro, *Vice President, Merrill Lynch*

- **The Consumer Market for Mobile Computing**
The lines between professional and personal use of technology blur as the users of those technologies go mobile. The transformation of professional computing technology into personal consumer products opens new avenues for consumer mobile technology.

Demonstrations by:
Dream House Software
Xircom, Inc.
Good Technology
myplay.com

- **M-Commerce: The Next Big Thing**
Mobile commerce will effect how and where consumers buy all types of goods. We believe this category will be one of the elements that success, or failure, of wireless adoption will be judged by. This group offers a range of technologies that we think will be important in the m-commerce space.

Demonstrations by:
SkyGo
Livemind
MerchantWired

- **The Future's So Bright . . .**
Where is mobile computing headed? We dose DEMOmobile 2000 with some speculation on the future of mobile technologies from the perspectives of the analysts and investors who have taken a peek over the horizon.

Moderators:
Chris Shipley, *Executive Producer, DEMO Conferences*
Jim Forbes, *Producer, DEMOmobile*

Panelists:
Conor Kehoe, *Partner, McKinsey & Company*
Martin Reynolds, *VP & Research Fellow, Gartner/Dataquest*

- **Conference Wrap Up/Closing**
Jim Forbes, *Producer, DEMOmobile*

PAVILION DEMONSTRATORS

26 • AudioBasket

2325 Third Street, Suite 331
San Francisco, CA 94107
Tel: 415.865.9000
Fax: 415.865.9030
Web: www.audiobasket.com

Funding: T-Ventures, Panasonic
Platform: Any standard audio device
Price: TBD
Ship Date: TBD

Corporate Officers:
Kim Fisher, *CEO*
Brian Fisher, *CTO*
Andrew Edelson, *Founder & VP, Marketing*

Product Name: AudioBasket

Product Description:

AudioBasket provides partnering Web sites with frequently updated, customized audio news and information from trusted sources like *The Wall Street Journal*, ABCNEWS.com, the *Financial Times*, and Bloomberg Radio. Partner sites can take their brand offline when users download AudioBasket for playback on the desktop or a standard digital audio device.

Chris and Jim's Thoughts:

AudioBasket has put together an outstanding combination of content delivery technology, relationships with key content suppliers and wireless device makers, a sharp business model, and savvy management team – all positioning AudioBasket for future success.

PAVILION DEMONSTRATORS

23 • BeVocal, Inc.

982 Walsh Avenue
Santa Clara, CA 95050
Tel: 408-748-8700
Fax: 408-748-8888
Web: www.bevocal.com

Funding: \$45 million second round from Mayfield Fund, U.S. Venture Partners, Technology Crossover Ventures, and TransCosmos USA.

Platform: VocalBoost™, a patent-pending voice portal service architecture, incorporates BeVocal's library of over 100 SpeechObjects, VoiceXML, and fully tested, commercially deployed APIs – as well as tools from Nuance, NMS, and L&H – into a high-density platform configuration.

Price: Free

Ship Date: September 7, 2000

Corporate Officers:

Mikael Berner, *Co-founder & CEO*
Amol Joshi, *Co-founder & VP, Marketing*
Kevin Stone, *Co-founder & VP, Operations*
Steve Tran, *Co-founder & CFO*

Product Name: Business Finder

Product Description:

BeVocal Business Finder enables consumers to find nearby businesses and services across the United States by either saying a brand name or business category. In addition, callers can obtain store hours, driving directions, or dial through to the business. Examples of categories include: ATMs, gas stations, restaurants, hotels, and retailers.

Chris and Jim's Thoughts:

BeVocal's Business Finder is an important example of how voice can drive commerce when it's used with wireless devices such as cell phones. We selected this product because it works nationally as well as locally, and because it allows users to easily specify products by brand names or other criteria.

DEMONSTRATORS

10 • Coola, Inc.

800 West Cummings Park, Suite 3800
Woburn, MA 01801
Tel: 781-938-9075
Fax: 801-409-7448
Web: www.coola.com

Funding: Private

Platform: Windows, PalmOS

Price: Tiered

Ship Date: September 2000

Corporate Officers:

Sudha Jamthe, *President*
Shirish Jamthe, *Treasurer*

Product Name: Coola

Product Description:

Coola is a service enabling the convergence of Web and wireless. Its wireless infrastructure helps Web businesses extend their brand to the mobile space. Users of wireless Palm handheld devices can communicate and share Web-based and other information with other Palm users, regardless of whether they are wireless.

Chris and Jim's Thoughts:

Coola has taken a simple and elegant approach to wireless information access by enabling users to sync discrete Web-based information, such as calendar items and contact data, into the appropriate application on Palm and other wireless devices. You can experience Coola on the demo.com site to sync DEMOmobile-related information to your wireless device.

Fax: 650-632-4001
Web: www.covigo.com

Funding: \$12 million from Norwest Venture Partners, Nokia Venture Partners, and leading Angel Investors.

Platform: Wireless ASP runs SUN/Solaris

Price: TBD

Ship Date: Q4 2000

Corporate Officers:

Dev Khare, *CEO*
Krishna Vedati, *CTO*
Srinivas Mandyam, *VP, Engineering*

Product Name: mService™

Product Description:

Covigo assembles, hosts, and manages wireless solutions for e-businesses, enabling seamless usage of an e-business' services over mobile devices such as smartphones and PDAs. mService, the company's complete m-commerce solution, offers e-businesses a unique set of technologies and expertise to go mobile in a compelling manner and includes the provision of personal information, messaging, content, and commerce services over mobile devices.

Chris and Jim's Thoughts:

Covigo's mService mobile transaction platform is well-suited to a range of Internet communities and Web sites being designed to support features such as messaging as well as m-commerce.

Price: TBD

Ship Date: 2001

Corporate Officers:

George A. Kembel, *CEO & Founder*
John A. Kembel, *CTO & Founder*
Tony Medrano, *President & Founder*
Scott Sorodhak, *VP, Sales & Business Development*
Ralph Rogers, *VP, Marketing*
Jim Madkraz, *VP, Engineering*

Product Name: Mobile Dots

Product Description:

In February 2000, DoDots, a digital infrastructure company, introduced a better way for companies to brand, package, and distribute Internet content and applications directly to their customers' desktops. Today, DoDots is demonstrating how its extensible architecture delivers Dots to other Internet-enabled devices, giving companies a powerful way to extend their business beyond the desktop.

Chris and Jim's Thoughts:

DoDots extensible software architecture is a rare find in today's world. It increases the power and capabilities of handheld computers and other small form factor Internet devices. And what makes DoDots more remarkable is that it uses a tool to extend Web presence to new emerging form factors.

4 • Dream House Software

21C Orinda Way #376

Orinda, CA 94563

Tel: 925-254-6489

Fax: 925-254-0986

Web: www.anywheremobile.com

Funding: Angel

Platform: Win 95/98/NT/2000; All Web browsers, including Palm and Wap Phones, Win CE, etc.

Price: approximately \$10 per month

Ship Date: October 1, 2000

Corporate Officers:

Alan Finke, *President*

Eric Budbinder, *CEO*

Product Name: AnyWhereMobile Internet Service

Product Description:

AnyWhereMobile is an innovative Internet-based service that gives users access to the files on their PC from any Web-enabled device, such as a standard browser, Internet kiosk, Palm VII, Palm PC, WAP phone, or a standard telephone using voice command and recognition. The interface is optimized for the client device so the user always has the best possible experience.

Chris and Jim's Thoughts:

We particularly liked this company's diverse approach to wireless and the capabilities of its software platform. Dream House's AnyWhereMobile wireless technology lets you manage all types of data as well as control remote systems from a wireless-capable Palm handheld, or a WAP phone.

Web: www.ecrio.com

Funding: Private

Price: TBD

Ship Date: November 1, 2000

Corporate Officers:

Nagesh Challa, *President & CEO*

Rao Gobburu, *VP, Development*

Mike Gannage, *VP, Business Development*

Rich Siegel, *VP, Sales*

Product Name: ecrio Messenger

Product Description:

Ecrio's rich Instant Messaging platform enables users to write messages in any language with a free mix of handwriting and drawings for instant delivery. Their client-server architecture is designed for use with any wireless appliance, including a Palm, Pocket PC, Symbian, or WAP-enabled phone.

Chris and Jim's Thoughts:

Wireless messaging is more than text and voice. The ability to support graphics, MP3 and other rich data types is critical to the success of next generation products. Ecrio's Instant Messaging technology does this well and will affect the features included in future wireless client devices and servers.

PAVILION DEMONSTRATORS

24 • EncrypTix, Inc.

101 N. Sepulveda Blvd. Suite 150
El Segundo, CA 90245

Funding: \$35.8 Million first round

Price: TBD

Ship Date: Launch late Fall 2000

Corporate Officers:

Jim Rowan, *President & CEO*

Tim Von Kaenel, *Senior VP, Product Management*

Mike Zeile, *Senior VP, Business Development*

James Dzierzanowski, *VP, Advanced Technologies*

Patti Gibbon, *VP, Legal*

Michael Mushet, *VP, Engineering*

Product Name: EncrypTix

Product Description:

EncrypTix provides highly secure delivery, storage, and verification of value bearing instruments over the Internet and wireless networks. Utilizing the highest level of security available for commercial transactions, EncrypTix delivers value items such as tickets, vouchers, boarding passes, checks, and gift certificates to any device including printers, smart cards, PDAs, and Internet-enabled wireless access phones.

Chris and Jim's Thoughts:

EncrypTix's secure m-commerce architecture was selected to be part of this event because of its reliability, non-intrusive design, and its ease-of-use for individuals and corporate entities who want to deliver high-value information to wireless devices.

Bob Spinner, *President & CEO*
Sharam Sasson, *Chairman of the Board & Founder*
Kenneth R. Hahn, *CFO*
Elizabeth A. Ireland, *VP, Marketing*
Brian Mort, *VP & GM, European Operations*
Allen Nordgren, *VP, Professional Services*
Mark Oney, *VP, Engineering*
Eric C. Ruud, *VP, Sales*
Don Smith, *VP & GM, Hosted Operations*
David A. Yamold, *VP, Business Development*

Product Name: Extensity Mobile Connect

Product Description:

Extensity Mobile Connect provides end-to-end travel and expense management and billable time capture to employees who are on the road or away from their desks (and Internet connection). Approving managers can view the details and approve travel plans and timesheets in a timely fashion using the wireless Internet in your pocket.

Chris and Jim's Thoughts:

Just because an executive is out of the office doesn't mean their management responsibilities stop. Business managers simply can't be out of touch when they are mobile. Extensity Mobile Connect helps mobile professionals manage and participate in time-sensitive tasks via a wireless solution.

Redwood City, CA 94065
Tel: 650-620-4900
Fax: 650-620-4901
Web: www.good.com

Funding: Kleiner Perkins Caulfield & Byers, Benchmark Capital
Platform: Springboard module for Handspring's Visor
Price: \$249
Ship Date: Early October 2000

Corporate Officers:

Dave Whorton, *CEO*
Jeff Mock, *CTO*
Joel Jewitt, *VP, Business Development*

Product Name: SoundsGood™ AudioPlayer

Product Description:

The first Springboard™ module from Good Technology turns your Visor into a fully-fledged 64-MB digital music player. The compact SoundsGood AudioPlayer was designed to fit perfectly with your Visor's expansion slot, virtually disappearing and making it easy to fit music into your day. Along with the GoodDesktop™ software, the SoundsGood AudioPlayer delivers everything you need to download and play about an hour of CD-quality digital music.

Chris and Jim's Thoughts:

Good Technology is pioneering a new business model that will drive the success of third party device makers-particularly Handspring. The company is using a publishing-like model to reduce the time it takes to develop and bring to market peripherals for handheld devices.

Price: Free
Ship Date: Q4 2000

Corporate Officers:
Larry Page, *CEO & Co-founder*
Sergey Brin, *President & Co-founder*
Omid Kordestani, *VP, Business Development & Sales*

Product Name: Number Search

Product Description:

Data entry on today's wireless Web-enabled mobile phones can sometimes be cumbersome and prone to error when inputting text. Google's Number Search technology dramatically simplifies this process, enabling users to press each key only once, regardless of which letter is intended. The number string is sent to Google and analyzed, then used to quickly return the desired search results.

Chris and Jim's Thoughts:

Entering text data using the numeric keypad of a cellular phone is difficult and time consuming. Google's Number Search technology simplifies the process and will be a boon to mobile users. The new algorithm interprets the numbers entered on the keypad into text search terms and returns surprisingly accurate results.

Platform: Handheld PC
Price: \$999
Ship Date: September 2000

Corporate Officers:
Carly Fiorina, *CEO*

Product Name: HP Jomada 720 Handheld PC

Product Description:

The HP Jomada 720 Handheld PC keeps you in touch and up-to-date with minimum effort. Whether you're managing personal information, taking notes, keeping current via e-mail, or browsing the Web, the HP Jomada 720 has the power, flexibility, and speed to keep you productive when you're on the move.

Chris and Jim's Thoughts:

While some companies have stumbled into the handheld market, HP continues to innovate — and it's because of that continued tradition of innovation that we invited the HP Jomada 720 Handheld PC to debut at DEMOMobile 2000.

Funding: Public (NYSE: IBM)
Platform: ThinkPad
Price: \$1,500 to \$4,000
Ship Date: October 2000

Corporate Officers:
Lou Gerstner, *CEO*

Product Name: ThinkPad and WorkPad Wireless Solutions

Product Description:

IBM is exhibiting its wireless LAN solutions—including PC Card adapters and selected ThinkPad notebooks with integrated wireless capability—along with its Bluetooth Personal Connectivity technology. They are also demonstrating the coexistence of both technologies in the ThinkPad notebook, providing high-speed access to the Internet via 802.11b, and file transfer via Bluetooth.

Chris and Jim's Thoughts:

IBM is leading the integration of wireless in mainstream mobile computers. Ultimately, if wireless is to really become pervasive, more companies will have to follow in the footsteps of companies such as IBM.

Funding: Public (NYSE: IBM)
Platform: IBM Voice Technology on wireless phones with WAP capability
Price: TBD
Ship Date: TBD

Corporate Officers:
Patty McHugh, *Director, New Business Development*
Tom Houy, *Manager, Client Systems Marketing*

Product Name: IBM ViaVoice for Distributed Voice In / WAP Out

Product Description:

IBM's distributed ViaVoice is critical to development of end-to-end mobile/wireless e-solutions allowing the voice enablement of multimodal user interfaces by applications, services, and environments. The demo shows access to information using distributed Voice In/WAP Out technology.

Chris and Jim's Thoughts:

Ultimately, making internal and external sites mobile-ready means that they will be required to support voice recognition, as well as text data entry. IBM Voice Systems delivers on this promise.

Al Hildebrand, *Chairman*
Jay Weiss, *President & CEO*
William Seymour, *CFO*
Dr. Neil Bergstrom, *CTO*
Steve Timmerman, *VP, Marketing & Sales*
David Brooks, *VP, Product Development*
Dr. Eva Chen, *VP, Operations*

Product Name: eShades and eCase

Product Description:

The eShades, designed like sunglasses, provide a comfortable and completely private "big screen" viewing experience. Designed as an accessory to the notebook computer, it plugs into the PC card slot and allows you to view all information, including graphics and video, would otherwise be displayed on your notebook screen. The eCase, a compact and truly mobile Internet device, lets users easily carry around important full-size documents, e-mails, or Web pages. All desktop and Web-based information can be synchronized to the eCase and is displayed precisely the way it was originally formatted for the desktop.

Chris and Jim's Thoughts:

Mobile doesn't mean you have to share your information with anyone who can see your screen. Inviso's eShade and eScreen personal monitors are practical and reliable, and offer a full screen experience using an extremely portable display technology.

52 Third Avenue
Burlington, MA 01803
Tel: 781-203-5000
Fax: 781-203-5003
Web: www.lhsl.com

Funding: Public (NASDAQ: LHSF)
Price: TBD
Ship Date: Q3/Q4 2001

Corporate Officers:

Gaston Bastiaens, *President & CEO*

Product Name: SofIA

Product Description:

Lernout & Hauspie (L&H) is demonstrating a technology platform accessible from any access device, including PDAs, cellular phones, Internet appliances, and PCs. It uses software assistants to learn, store, and act upon user information. L&H is combining its proven technologies, such as speech recognition and text-to-speech, with powerful new dialog systems and software agents that learn, store, and act upon user information.

Chris and Jim's Thoughts:

Voice recognition and text-to-speech translation may be one of the most important technologies emerging for the mobile and wireless markets. Voice recognition is particularly important in the consumer space. Lernout and Hauspie's use of agent, voice recognition, and messaging platforms was chosen because it is an outstanding demonstration of a voice-enabled wireless enterprise application.

110 Cooper Street, 4th Floor
Santa Cruz, CA 95060-3901
Tel: 831-469-1850
Fax: 831-469-1851
Web: www.lightsurf.com

Price: TBD
Ship Date: Q1 2001

Product Name: Instant Wireless Visual Communications

Product Description:

LightSurf's Instant Wireless Digital Photography—a revolutionary visual communication device and wireless imaging infrastructure—merges the wireless world with the fun of digital photography and the power of the Internet. The result is an end-to-end, ultra-sleek solution allowing users to capture and share images instantaneously around the globe.

Chris and Jim's Thoughts:

Digital imaging has thus far required users to go through cumbersome steps to transfer pictures from cameras to the Internet. Lightsurf's camera attaches directly to a cell phone making the transfer to the Internet, via LightSurf's infrastructure software, seamless. The end result is one of the fastest digital imaging delivery systems we've seen.

Platform: WAP enabled devices
Price: TBD
Ship Date: October 2000

Corporate Officers:

Karen Wilson, CEO
Iain Scholnick, CTO

Product Name: Contextual Commerce (C2)

Product Description:

The C2 Engine™ transforms traditional content, products, and services into a contextually relevant and transaction-ready, wireless experience that will drive consumers to utilize the global wireless Web. C2 applications are created within the Livemind platform by uniting these revenue-generating products and services with the related passive but sticky content. Once personalized, the C2 applications create a powerful impulse to buy anything, anywhere, anytime directly within information that matches an individual mobile user's interests.

Chris and Jim's Thoughts:

Many m-commerce players find their technologies put to work on wireless devices with very small screens. Livemind's Contextual Commerce (C2) platform demonstrates the advantages of a personalized shopping experience delivered in the appropriate context of the consumer's access device.

Ship Date: TBD

Corporate Officers:
Jim Giuliano, *CEO*
Bob Covington, *CTO*

Product Name: MerchantWired
Product Description:
MerchantWired is a full-service retail infrastructure standard connecting the physical and virtual worlds in the retail industry by providing access to a high-speed, reliable, and secure coast-to-coast network. Working with a coalition of property owners and infrastructure partners like Cisco Systems, IBM, Intermedia Communications, MerchantWired is defining the retail infrastructure standard for the industry.

Chris and Jim's Thoughts:
MerchantWired has a "first-mover" advantage when it comes to equipping many of the country's shopping malls for local and distance m-commerce. The company has deals with technology infrastructure firms, such as Cisco, as well as major shopping mall developers, and they've structured unique financing from a consortium of mall developers and infrastructure companies.

Christopher Herot, *President & CEO*
Pascal Chesnois, *CTO*
Imran Qidwai, *VP Engineering*
Michael Dreyfus, *Senior Director, Business Development*

Product Name: Personal Messaging Assistant

Product Description:

Personal Messaging Assistant is a simple, reliable, and trackable service for delivering messages to instant messaging, mobile phones, e-mail, pagers, Palm, and other devices. Through automatic and remote controls, the subscriber determines where and how messages should be delivered, absolving the sender from knowing the best way to reach them.

Chris and Jim's Thoughts:

MessageMachines was asked to participate at DEMOmobiLe 2000 because its technology allows users to effortlessly track and deliver all types of text messages using an easy to understand control metaphor. With MessageMachines, the painstaking process of locating someone through a list of contact numbers is no longer an issue.

Martin Buhr, *VP, Business Development*

Product Name: Neomar Content Management Server

Product Description:

The Neomar Wireless Enterprise Platform includes a secure WAP Gateway, Wireless Content Management Server, and WAP Browsers for RIM and Palm devices. The Content Management Server being demonstrated allows personalization and control of wireless Web services in the enterprise. This server, together with Neomar's WAP Gateway and WAP Browsers, provides a secure, end-to-end solution for enterprise application developers.

Chris and Jim's Thoughts:

Neomar's Content Management Server architecture lets enterprise developers quickly and efficiently build sites for large organizations that want to deliver critical information to a wide variety of wireless devices. The strength and features of this company's wireless browsing technology were also reasons why we selected this company for DEMOmobiLe 2000.

Corporate Officers:

Michael Maggio, *President & CEO*
Shyam Kamadolli, *Founder & CTO*
Rajeev Tipnis, *Founder & VP, Development*
Bill Dedrick, *Senior VP, Sales & Marketing*

Product Name: SiteMorf

Product Description:

SiteMorf is based on an open-ended architecture that supports and delivers data formatted appropriately for multiple handheld devices, wireless phones, data phones, and Web browsers available today. As new technology is introduced into the wireless world, companies can easily and quickly incorporate new sources and devices using SiteMorf to map new data sources and design new displays. With SiteMorf, enterprises can confidently deploy complete m-commerce solutions that perform reliably and scale to process-critical, business transactions.

Chris and Jim's Thoughts:

Unlike many of the Web-scraping alternatives we saw in filtering companies for this conference, NetMorf's SiteMorf allows developers to quickly deliver Web-based m-commerce solutions tied directly to back-end databases and tailored for specific devices. We were particularly impressed with NetMorf's approach to customers, which is to understand first why mobility should be a part of the application.

Web: www.onsettechnology.com

Funding: Series A Private
Platform: Windows NT
Price: Client Based
Ship Date: September 7, 2000

Corporate Officers:

Gadi Mazor, *President & CEO*
Ron Maar, *CTO*
Ken Lane, *COO*
Drew Freeman, *VP, Marketing*
Stewart Fox, *VP, Sales*

Product Name: METAMessage

Product Description:

Onset's METAMessage for wireless service lets a mobile professional view or print an e-mail attachment on their wireless device. A Blackberry user receiving an e-mail message with a document attached can forward the e-mail to Onset. METAMessage for wireless will process the attachment and then let users read the attachment text on their device or print it using a local fax machine.

Chris and Jim's Thoughts:

An effective messaging platform has to do more than just allow users to read text. Ideally, it should provide users with a way to manage and print those messages. Onset's technology does this.

Allyson Fryhoff, *VP, Sales & Business Development*
John Dolan, *Chief Strategy Officer*

Product Name: OracleMobile Wireless Enterprise Applications

Product Description:

OracleMobile, a subsidiary of Oracle Corporation, is previewing its forthcoming applications that seamlessly integrate the wireless Internet and the wireless enterprise, making content from both available from one central access portal. The move to wireless is rapidly blurring the lines between B2B and B2C.

Chris and Jim's Thoughts:

OracleMobile caught our eye with a seemingly simple technology: the ability to access information on corporate databases, directories and other resources using a cell phone or wireless handheld. The ability to access corporate information using common wireless devices is essential to increased productivity of mobile professionals.

Product Name: wireless marketing network

Product Description:

SkyGo is the first company to offer a complete end-to-end solution for wireless interactive marketing on mobile devices using WAP, SMS, and voice. Leveraging an extensive network of customer bases, SkyGo offers advertisers a closed-loop marketing system that delivers and tracks advertising, time and location-sensitive marketing, transactions, and rewards programs.

Chris and Jim's Thoughts:

SkyGo's infrastructure software is one of the most effective platforms we've seen for delivering and evaluating advertising aimed at the wireless market. The company's software is location sensitive, a characteristic we think is vital to the success of all wireless advertising and m-commerce plays.

Product Description:

The Rex 6000 by Xircom is the world's smallest, lightest PDA. It's small enough to comfortably fit in a pocket, yet powerful enough to manage all your essential information. Simple and easy to use, the Rex 6000 micro-PDA is the ultimate combination of portability and functionality — it's all you need.

Chris and Jim's Thoughts:

It's a mistake to forget that portable computing isn't limited to wireless devices. We liked the original version of the Rex credit card-sized electronic PIM a great deal and think the REX 6000 redefines this category.

GENERAL INFORMATION

Registration and Information

For your convenience, the Registration and Information Desk, located in the Ritz-Carlton Ballroom Foyer, is open during the following hours:

Wednesday, September 6	12:00pm - 7:30pm
Thursday, September 7	7:00am - 7:00pm
Friday, September 8	7:00am - 2:00pm

Press Room

A press room for working media is located in The Consulate room on the Mezzanine Level. It is staffed by representatives from our public relations firm, Ketchum Public Relations, and managed by Becky Igo. Becky and her staff will be available throughout the show to answer questions, schedule interviews with Chris Shipley and Jim Forbes, connect members of the media with DEMOmobile speakers and demonstrators, and provide information about all press-related events and activities at the conference.

The press room will be equipped with telephones, modem lines, PCs, a fax machine, and a printer. Hours of operation are:

Wednesday, September 6	7:00am - 7:00pm
Thursday, September 7	7:00am - 7:00pm
Friday, September 8	7:00am - 4:00pm

Hotel Dining

For alternate dining located within the hotel, The Terrace features contemporary California cuisine with a Mediterranean influence. Breakfast, lunch and dinner are served daily, as well as a champagne brunch on Sundays. The Grill is a comfortable club-like setting overlooking the San Gabriel Valley. The menu features traditional American fare with grilled meats, chops and fresh fish. The Bar is the perfect casual gathering place for cocktails and live piano music nightly. The Lobby Lounge serves traditional Afternoon Tea with entertainment Thursday through Sunday. And The Pool Bar and Café offers tropical beverages as well as light fare, seasonally.

Messages & Faxes

Private messages can be sent to your guest room voicemail by calling The Ritz-Carlton, Huntington Hotel directly at 626-568-3900. Faxes can be received at 626-568-3700.

Notes

DEMOmobile 2000 is made possible through the support of our many sponsors, supporters, and by the work of an extraordinary team of talented and committed professionals.
