**Date:** Tuesday, January 23, 2024 2:13:40 PM

---

Counsel,

The Board appreciates the parties' efforts to resolve their disputes. Petitioner is authorized to file a motion seeking to seal Exhibit 2034 and enter the modified protective order. That motion should be accompanied by a redlined version of the modified protective order that shows all changes from the protective order previously entered by the Board, as well as a clean version of the order.

Petitioner's motion shall be filed within one month of this email. Any opposition by Patent Owner is due within fourteen days of Petitioner's motion. If Patent Owner files an opposition, then Petitioner may file a reply within seven days.

Regards,

Esther Goldschlager

Dear Trials,

The parties hereby certify that a telephonic meet and confer occurred on 12/20/23 at 11 am Eastern. Lead counsel for Petitioner and lead counsel for Patent Owner attended.

The parties have agreed to a modified protective order, a redlined version is attached hereto.

The parties have been unable to agree on the confidentiality of Exhibit 2034. Petitioner's position is that portions of it are confidential, and Patent Owner's position is that the exhibit is not confidential. Petitioner attaches proposed redactions to the exhibit, and notes that the publicly quoted parts of the exhibit in Patent Owner's Preliminary Response have not been redacted. Patent Owner states that should Google file a motion to seal, Patent Owner's position is that while Google's proposed redactions do not meet the standard for being sealed, Patent Owner does not intend to

file an opposition brief.

Petitioner therefore requests permission to file a motion to seal.

Respectfully submitted,

Michael L. Kiklis  
Lead Counsel for Petitioner, Google

Counsel,

From the Board –

In each of the above-referenced proceedings, Patent Owner filed a Renewed Motion to Seal an exhibit that includes an email chain between Petitioner and DODOcase (the predecessor-in-interest of the challenged patents). *E.g.*, IPR2023-00707, Paper 37 (“Renewed Motion”); *see, e.g.*, IPR2023-00707, Ex. 2034 (email chain; “Exhibit”). However, in the Renewed Motion, Patent Owner contends that the Exhibit does *not* include confidential information and that there is *not* “good cause to redact [it] or file it under seal.” Renewed Motion 2. Instead, “*Petitioner* has indicated that it believes that [the Exhibit] should be sealed.” *Id.* (emphasis added). The Renewed Motion provides a three-sentence summary of Petitioner’s position, which references a district court protective order, and is accompanied by Petitioner’s proposed redactions to the Exhibit. *Id.*

The Renewed Motion is unacceptable. First, the movant contends that there is not, in fact, good cause for relief. *But see* 37 C.F.R. § 42.20(c) (“The moving party has the burden of proof to establish that it is entitled to the requested relief.”); *e.g.*, IPR2023-00707, Paper 29 at 2 (“Order on Original Motions to Seal”) (explaining that “the default rule is that all papers filed in an *inter partes* review are open and available for access by the public,” but a document will be given confidential treatment if a party files a motion to seal showing “good cause”). Second, although there is an apparent dispute between the parties, the parties fail to adequately brief their respective positions: Petitioner’s position is poorly explained, and Patent Owner fails to provide any response to it.

The Board authorized “the parties” to file a renewed motion to seal the Exhibit because both parties had asserted that this document includes confidential information. Order on Original Motions to Seal 4–5. Clearly, that is no longer the case. For any and all disagreements between the parties, including the application of the district court protective order, the Board expects the parties to meaningfully meet and confer prior to contacting the Board to ensure that each party understands the other’s position before those positions are presented to the Board. In fact, parties must meet and confer telephonically or in person to attempt to reach agreement before contacting the Board. See IPR2023-00707, Paper 28 at 2 (“Scheduling Order”). The Board expects that, when ordered to meet and confer, the parties will make all reasonable efforts to reach agreement, and will only seek the Board’s guidance if a genuine impasse arises.

Accordingly, on or before **Friday, January 5, 2024**, lead counsel for both parties must meaningfully participate in a telephonic (or in person) meet and confer regarding the Renewed Motion and this email. During that meet and confer, counsel shall discuss whether the Exhibit (i.e., Exhibit 2034 in IPR2023-00707 and -708 and Exhibit 2024 in IPR2023-00709 and -711) includes confidential information. If so, counsel shall negotiate an agreed proposed redacted version of the document. In addition, during the meet and confer, counsel shall discuss an appropriate modification to the protective order to avoid similar problems in the future. To that end, the parties are reminded that, “[w]hen confidential information is to be entered into the record, it is the responsibility of the party whose confidential information is at issue, not necessarily the proffering party, to file the motion to seal.” See, e.g., Scheduling Order 2–3; *accord* Order on Original Motions to Seal 3 n.4.

By **Monday, January 8, 2024**, the parties must send an email to the Board at [trials@uspto.gov](mailto:trials@uspto.gov). In that email, counsel shall certify compliance with this requirement, identify all participants in and date and time of the meet and confer, briefly summarize the agreement reached, and provide a copy of the modified protective order.
