Google Announces Beta Release of Google Scholar

By [admin](#) / November 17, 2004

Google announces the beta release of [Google Scholar](#). The [Google Scholar FAQ](#) promises the ability “to search specifically for scholarly literature, including peer-reviewed papers, theses, books, preprints, abstracts and technical reports from all broad areas of research ... from a wide variety of academic publishers, professional societies, preprint repositories and universities, as well as scholarly articles available across the web.” For each article it indexes the service also displays a count of citations of which it is aware.
