R/C Missile Launcher - Unstoppable Cube Warfare!

Office | May 22, 2006

Here's another wonderful office toy of mass destruction, the R/C Missile Launcher from ThinkGeek. Simply grab the remote control and maneuver the vehicle into postition, angle the missile turret at your target and unleash hell on your fellow co-workers from up to 15 feet away. You can either launch one foam missile at a time or launch a rapid fire barrage. Take that Cindy in Accounting!
