**Re: *Auto Telematics Ltd. v. United Services Automobile Association and Noblr
Reciprocal Exchange, 6:22-cv-00474-ADA-DTG (W.D. Tex.)***

Dear Counsel:

United Services Automobile Association (“USAA”) has filed an *inter partes* review (IPR) petition (IPR2023-00859) with the Patent Trial and Appeal Board (PTAB) to address the validity of claims 1-55 of U.S. Patent No. 10,198,879 (“the ’879 Patent”). The tables in attached Appendix A list all grounds, challenged claims, and references asserted in IPR2023-00859. In a subsequent filing, USAA updated its mandatory notices to indicate that USAA and Noblr Reciprocal Exchange (“Noblr”) are real parties-in-interest to the IPR2023-00859 proceeding.

I write to inform you that USAA and Noblr hereby stipulate that if the PTAB institutes IPR2023-00859 based on the grounds in attached Appendix A, USAA and Noblr will not pursue for the instituted claims, in the District Court proceedings, the same grounds or any grounds that could have reasonably been raised before the PTAB in the IPR2023-00859 petition. *Sotera Wireless, Inc. v. Masimo Corp.*, IPR2020-01019, Pap. 12 at 13-20 (PTAB Dec. 1, 2020) (precedential) (“*Sotera*”).

Fish & Richardson P.C.
1000 Maine Avenue, S.W.

Pursuant to *Sotera*, USAA and Noblr reserve the right to assert grounds in the District Court proceedings based on the system art listed in Appendix B, either alone, or in combination with other prior art.¹ For the sake of clarity and to avoid any doubt, if the PTAB declines to institute IPR2023-00859, USAA and Noblr reserve the right to assert any grounds of invalidity in the District Court proceedings against the '879 Patent.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael T. Zoppo". The signature is stylized with a large, sweeping loop at the end.

Michael T. Zoppo

Attorney for United Services Automobile Association

¹ USAA notes that system art (e.g., the system art listed in attached Appendix B) is not eligible for PTAB consideration in an IPR proceeding, and grounds based on system art either alone, or in combination with patent or printed publication prior art, could not have reasonably been raised before the PTAB in the IPR2023-00859 petition. *See* 35 U.S.C § 311(b). Further, discovery in the District Court proceedings is currently ongoing and USAA expects there to be additional materials and/or testimony relating to the system art listed in Appendix B. For the avoidance of doubt, USAA reserves the right to rely on such forthcoming productions in the District Court proceedings.
