BEFORE THE PATENT TRIAL AND APPEAL BOARD

PARSE BIOSCIENCES, INC.,
Petitioner,

v.

10X GENOMICS, INC.,
Patent Owner.

Case No. IPR2023-00876
U.S. Patent No. 10,155,981

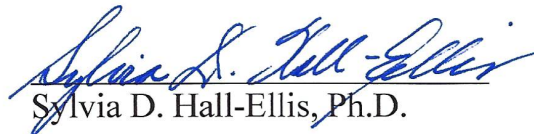

DECLARATION OF SYLVIA D. HALL-ELLIS, Ph.D.

1. I, Sylvia D. Hall-Ellis, declare as follows:

2. My name is Sylvia D. Hall-Ellis. I have been retained as an expert by Parse Biosciences, Inc., the Petitioner, in the above-captioned inter parte review. I previously prepared a Declaration at the request of the Petitioner to provide my expert opinion regarding the authenticity and public availability of the McCloskey publication. EX1065. My compensation and qualifications are provided in that declaration.

3. I understand that Patent Owner contends that my opinions on McCloskey were directed to a “different version of McCloskey” because of a “box top right with copyright notice” appearing on Exhibit A of my declaration. *See* Paper 35 at 7 n. 4; EX1065.037. As explained in my declaration, the McCloskey article “was found in the Linda Hall Library of Science, Engineering & Technology.” EX1065.026. Pursuant to the Linda Hall Library’s standard procedures, the copyright notice was affixed on the document when the Library prepared the scan for my declaration. I understand this was done by the Linda Hall Library to comply with copyright laws. Thus, my opinions are, in fact, directed to the same McCloskey publication as relied upon in the petition. *Compare* EX1065.037-43 *with* EX1004.
