Dear Honorable Board:

Patent Owner seeks permission to file a Motion to Strike in the above-identified IPR. Specifically, Patent Owner seeks to strike portions of Petitioner's Reply and Dr. Holberg's Declaration (Ex-1023), which rely on new invalidity theories that were not presented in the Petition, including new obviousness theories with respect to the "microcontroller" limitations. Petitioner opposes Patent Owner's request.

The parties are available for a conference call with the Board at the below times (all times Eastern).

- May 7: 11-5
- May 8: 10-12 and 1:30-5
- May 9: 10-11 and 12-5
- May 10: 10-5

Sincerely,

Heath Briggs
